BASICALLY THE CUTOUT PARTS WOULD FOLD BACK ON ITSELF TO BECOME STORAGE SPACE.
THIS FRONT FACE WOULD BE LOWERED OR COULD BE LEFT OPEN
- THIS DESIGN IS A STORAGE SOLUTION
- WOULD NEED TO BE FLAT AND ASSEMBLED
- DRILLED TO THE WALL.
WOULD SIT EITHER FLAT AGAINST WALL OR AT A 90° ANGLE
WOULD USE A STANDARD KITCHEN UNIT LOCK TO SECURE IT ON THE WALL BUT WOULD NEED TO BE ENGINEERED
- LIGHWEIGHT
- COOL
- TIMBER
- UNITIP
THIS DESIGN IS A STORAGE SOLUTION
- WOULD NEED TO BE FLAT AND ASSEMBLED
- DRILLED TO THE WALL...
HOLES WOULD HELP THE PIECES LIKE CORECT WITH MORE THAN 1.
THIS IS IDEALLY HOW IT WOULD FLATLY SIT AGAINST THE WALL AS A STORAGE SOLUTION
