

# weatherproof

weatherproof has been outfitting men and women in fashionable and functional outerwear for over fifteen years. the weatherproof man is a combination of a rugged outdoorsman and polished professional. i created this line of backpacks and other small travel items catering to the metropolitan man who likes to get his hands dirty on the weekends. each piece is constructed of 1680 poly denier fabric trimmed with neoprene and treated with a water-repellent coating. all zippers are waterproof designed to keep your possessions protected from the elements. throughout the line there are subtle pops of color introducing a hint of fashion forward thinking.
