for CENTURY

Century joins forces with Oscar de la Renta and the Dowager Duchess of Devonshire to create Chatsworth, a collection of exquisite garden furniture.

Chatsworth House is the English home of the Dowager Duchess of Devonshire.

The Chatsworth Collection, created by Oscar de la Renta in collaboration with his good friend Her Grace, the Dowager Duchess of Devonshire, is the epitome of elegant English garden furniture.

“The Duchess and I have been good friends for many years. We each have a passion for gardening. My goal with this collection was to bring the lifestyle of the English countryside to American gardeners.”

How to maintain mahogany furniture with CenShield™ Gloss finishes.

CenShield™ Gloss finishes are designed for full time, year-round outdoor enjoyment. However, they should be maintained on a regular basis.

For day-to-day cleaning and removing dust and surface dirt, wash with a soft cloth and non-abrasive soap and water. Surface cleaning may also be done with household products such as Windex®. Products designed for cleaning marine or automobile finishes may also be used for periodic thorough cleaning.

Note: Wet or damp cushions and pillows should not be left on mahogany frames with CenShield™ Gloss finishes for prolonged periods of time. Moisture trapped between cushions or pillows and mahogany frames may result in finish degradation or failure. Cushions, when wet or damp, should be removed from mahogany frames and allowed to thoroughly dry.
