

*In these days of instant communication, it's easy to overlook the act of writing a thank you note.*

*You know the kind you put in an envelope, seal, then place in the mailbox. The kind your mother taught you to write!*

*We at AARP feel that a thank you note is a gift in and of itself. Give back to the “givers” in your life.*

*Use this thank you note to write someone who has given to you (perhaps it was simply a smile.)*
