

“The Avalanche is a good choice for people who do moderate hauling or towing, but still want a comfortable interior with plenty of seating.”

U.S. NEWS & WORLD REPORT¹

Rearview camera system. An available rearview camera system helps you see certain stationary obstacles on the navigation screen (shown) or in the rearview mirror while moving in Reverse at slow speeds. Standard on LTZ.

Towing capacity. Powering the family of Avalanche models is the Vortec 5.3L V8 engine with 320 horsepower and up to 8,100 lbs. of towing capacity².

Ride quality. Avalanche is a hardworking truck and, thanks to the coil-spring suspension it shares with Tahoe and Suburban, it's also a smooth ride.

Active Fuel Management technology delivers power when you need it. It deactivates four of the eight engine cylinders with seamless precision to conserve fuel, and when conditions demand, all eight cylinders are reactivated to give you the power you need.

StabiliTrak. The StabiliTrak Electronic Stability Control System with Traction Control helps you avoid what the road might throw at you by improving vehicle stability, particularly during emergency maneuvers.

¹ U.S. News Car Rankings at [usnews.com/cars](https://www.usnews.com/cars). ² Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Chevy dealer for additional details.
