TO WHOM IT MAY CONCERN:

Malgorzata Spasiewicz was employed in the urban and planning department of Asplan Viak in the period of time between 2nd May 2011 until 29th June 2012.

She was mainly involved in projects of housing areas and shopping centers. Her duties included:

- collaboration on developing the urban concepts and the architectural form
- making 2d drawings and 3d models (Archicad)
- making urban and architectural visualizations (3ds Max)
- preparing project presentations for the clients (Photoshop, Illustrator, In Design)
- making site analyses
- contacting clients and co-working specialists

The detailed list of the projects, with their specifications and the scope of works done by the employee, can be found in the attachment.

Malgorzata Spasiewicz demonstrated creative, ambitious and committed attitude to work. She was independently dealing with the tasks entrusted.

She is an outgoing person with a positive attitude. During her 14-months long employment in Asplan Viak she learned Norwegian up to the basic communicative level.

We are very satisfied with her work and are happy to give her our best recommendations.

With sincere regards
ASPLAN VIAK AS
