CONCEPTUAL SKETCHES

WEST EXTERIOR ELEVATION

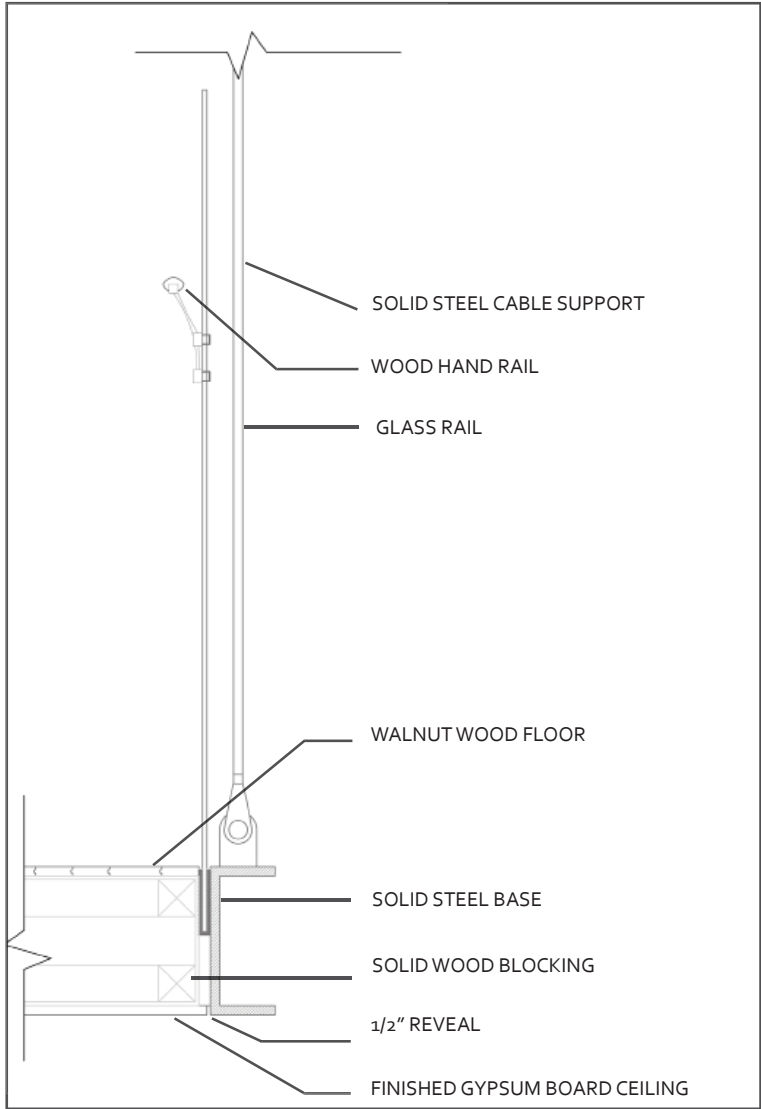

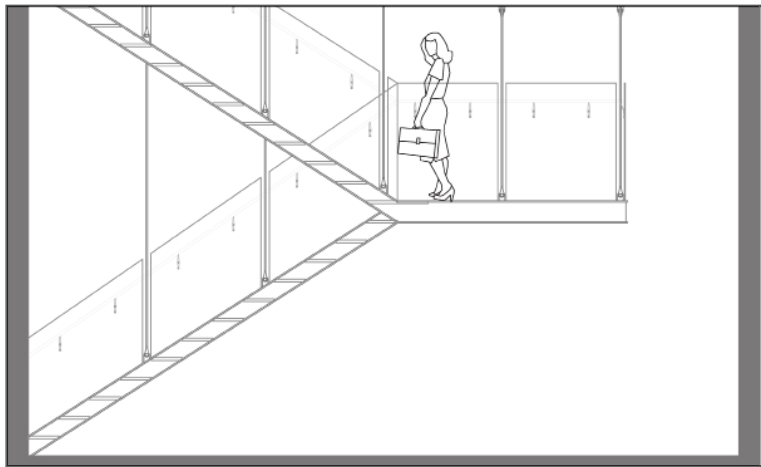

When creating the Renzo Piano Gallery: Towering glass and steel facade, with its floating roof and excruciatingly slender columns came to mind in concept. When thinking about showcasing his work, keeping the plan refine it offers a cool, almost sterile feel. The lightness continues with the glass roof that is suspended on delicate steel trusses. Renzo Piano's Modern Wing in Chicago inspired the staircase, suspended on slender rods. It is the obsessive refinement that showcases Mr. Piano's work of art.

The concept for the gelato cafe is derived from the product itself. The design will incorporate visual aspects of the gelatos colors and playfulness. Exploring the balance of an asthenic link between past and the future. With classic design of the existing 18th century building in Paris brought the idea of going back to classic design.

Surrealism works feature the element of surprise, unexpected juxtapositions. This concept came to mind when redesigning AI Library. A place designed to generate ideas and learn others. The visual inspiration was drawn from what is real and what it not, From a life-sized horse to lighten up the space , recessed linear light fixtures, to an over sized crystal chandelier.

CHICAGO CONDO SKY BRIDGE

There is a cohesiveness implied in the term 'collection' and the most interesting collections are built around a theme reflecting the vision of the collector. An eclectic Mid Century revival is in this concept a grouping based on personal art collection and the passion for finely tailored furniture.

SPACE PLAN FOR A CONSTRUCTION FIRM

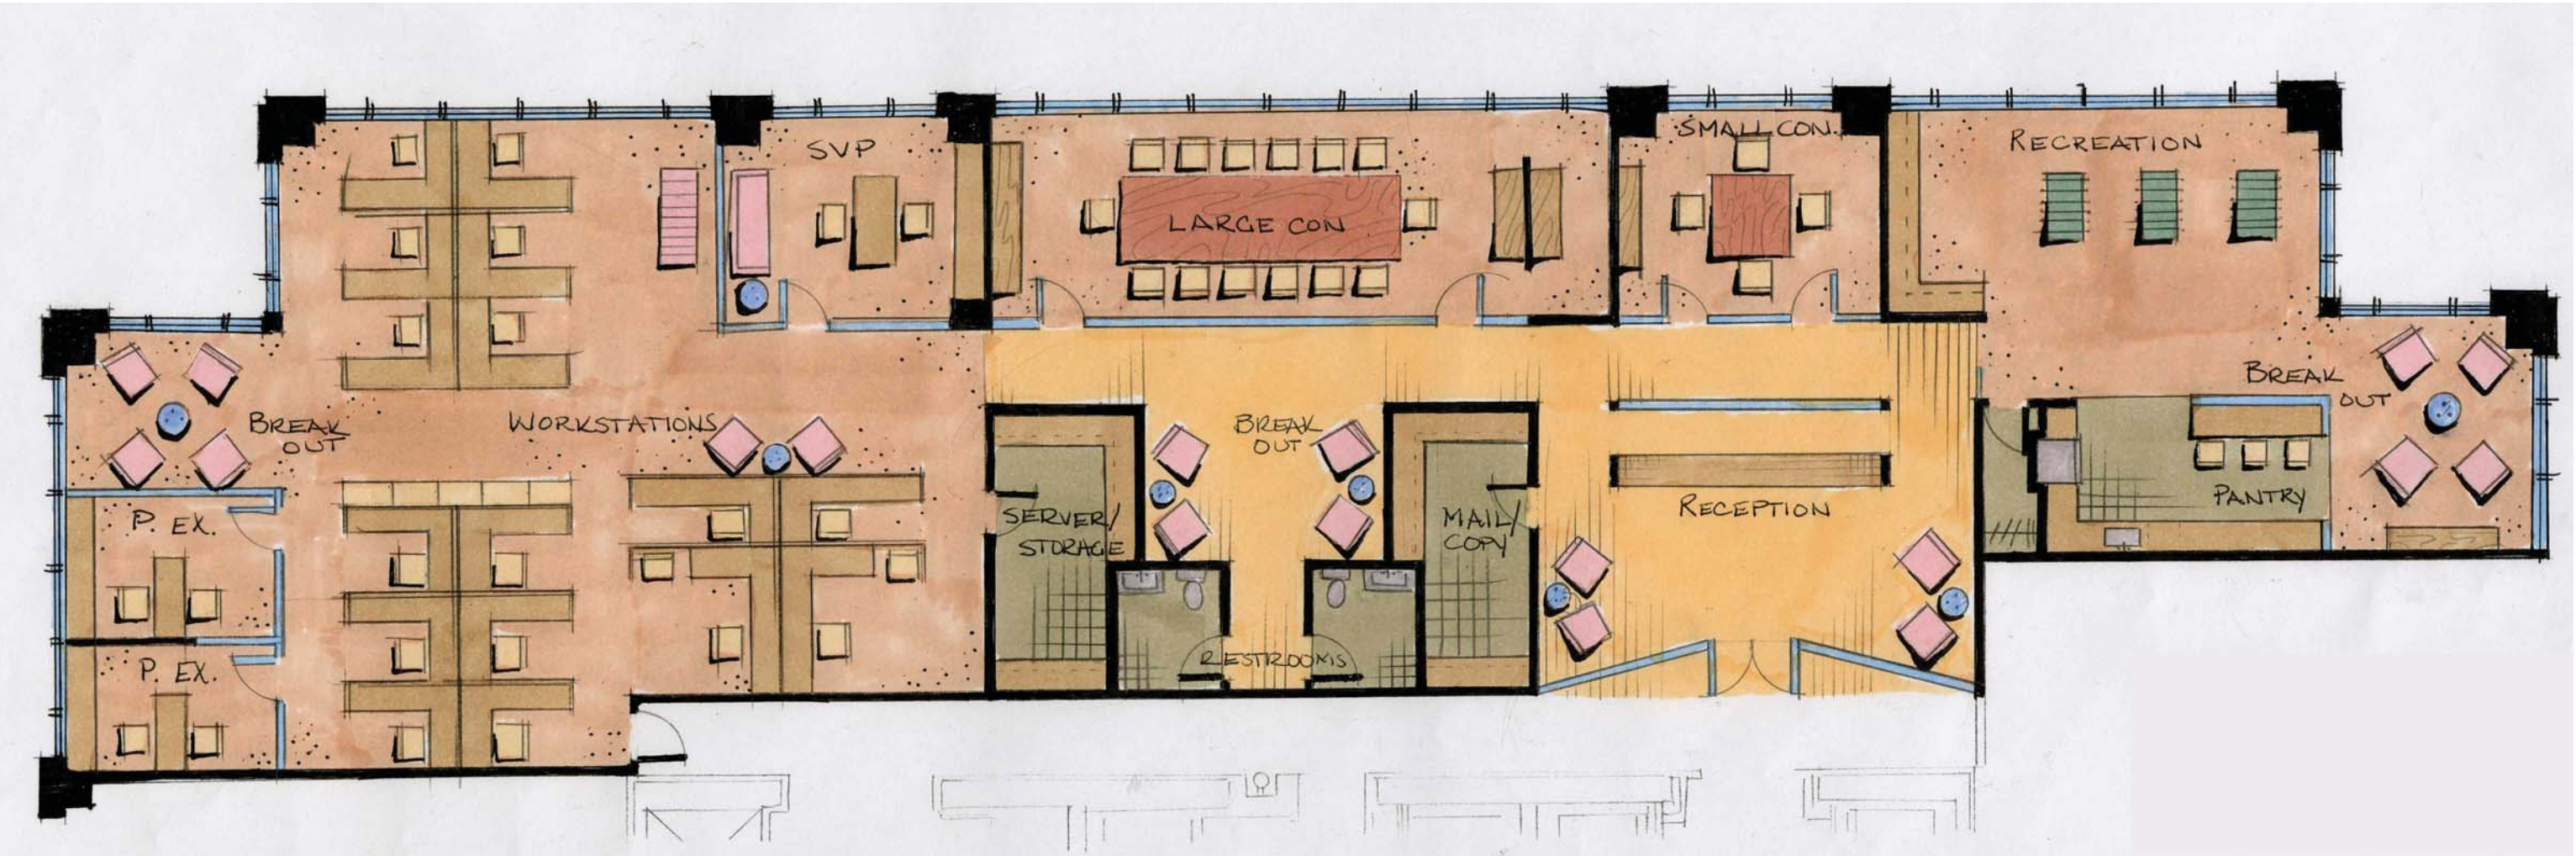

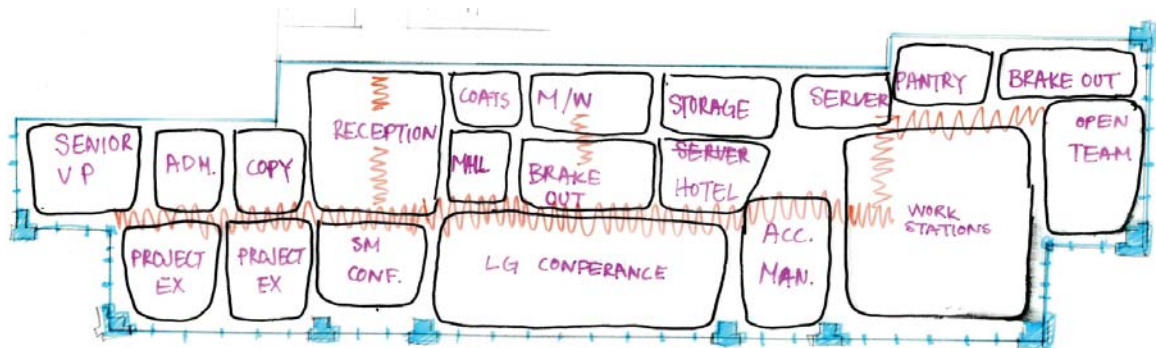

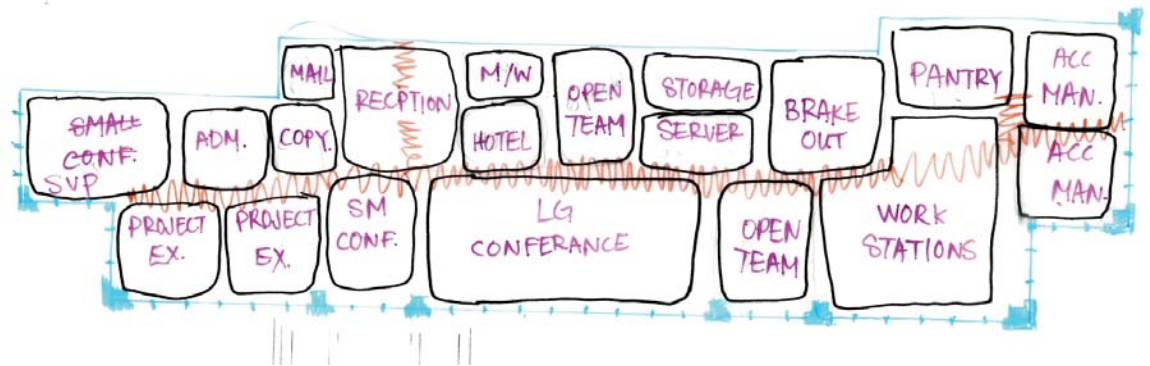

SPACE PLAN FOR A CONSTRUCTION FIRM

The construction firm for which this space is being created, is forward thinking, innovative and sustainable in construction. Thoughtful space planning came to mind. open space and letting in natural light was extremely important when designing the space. Floor to ceiling glass allowed extra light and kept the space feeling spacious and bright.

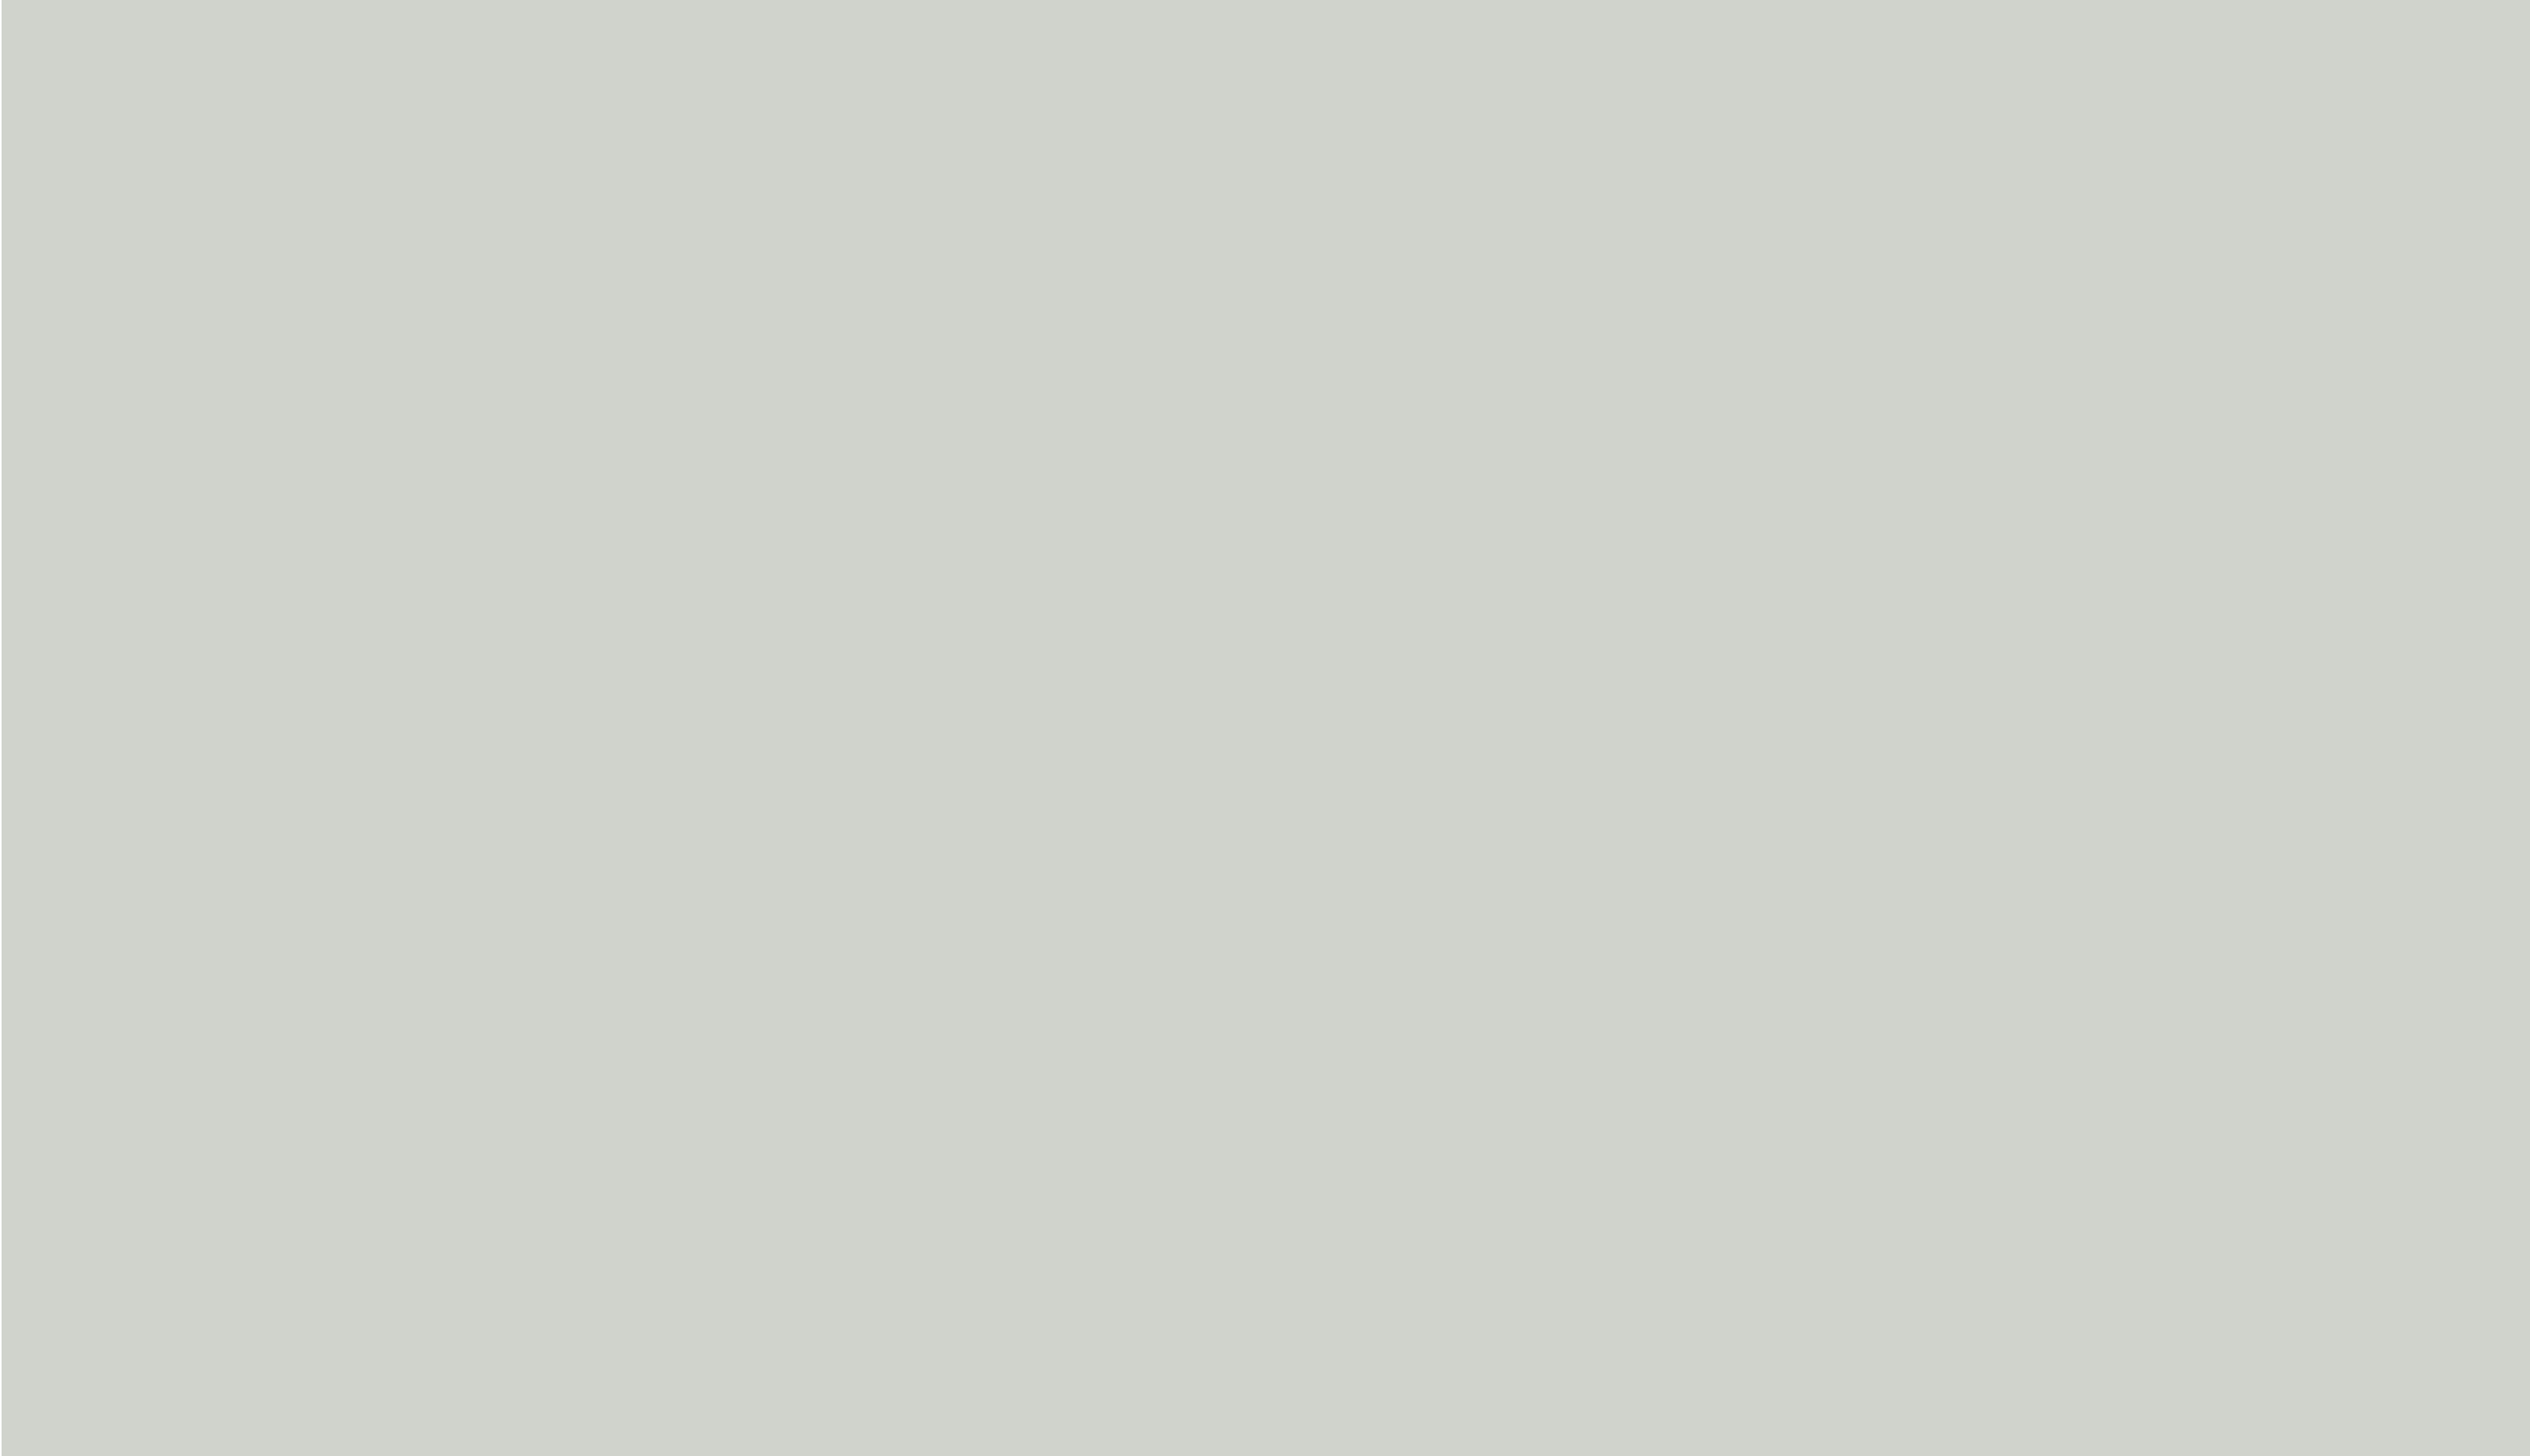

SPACE PLAN FOR A CONSTRUCTION FIRM

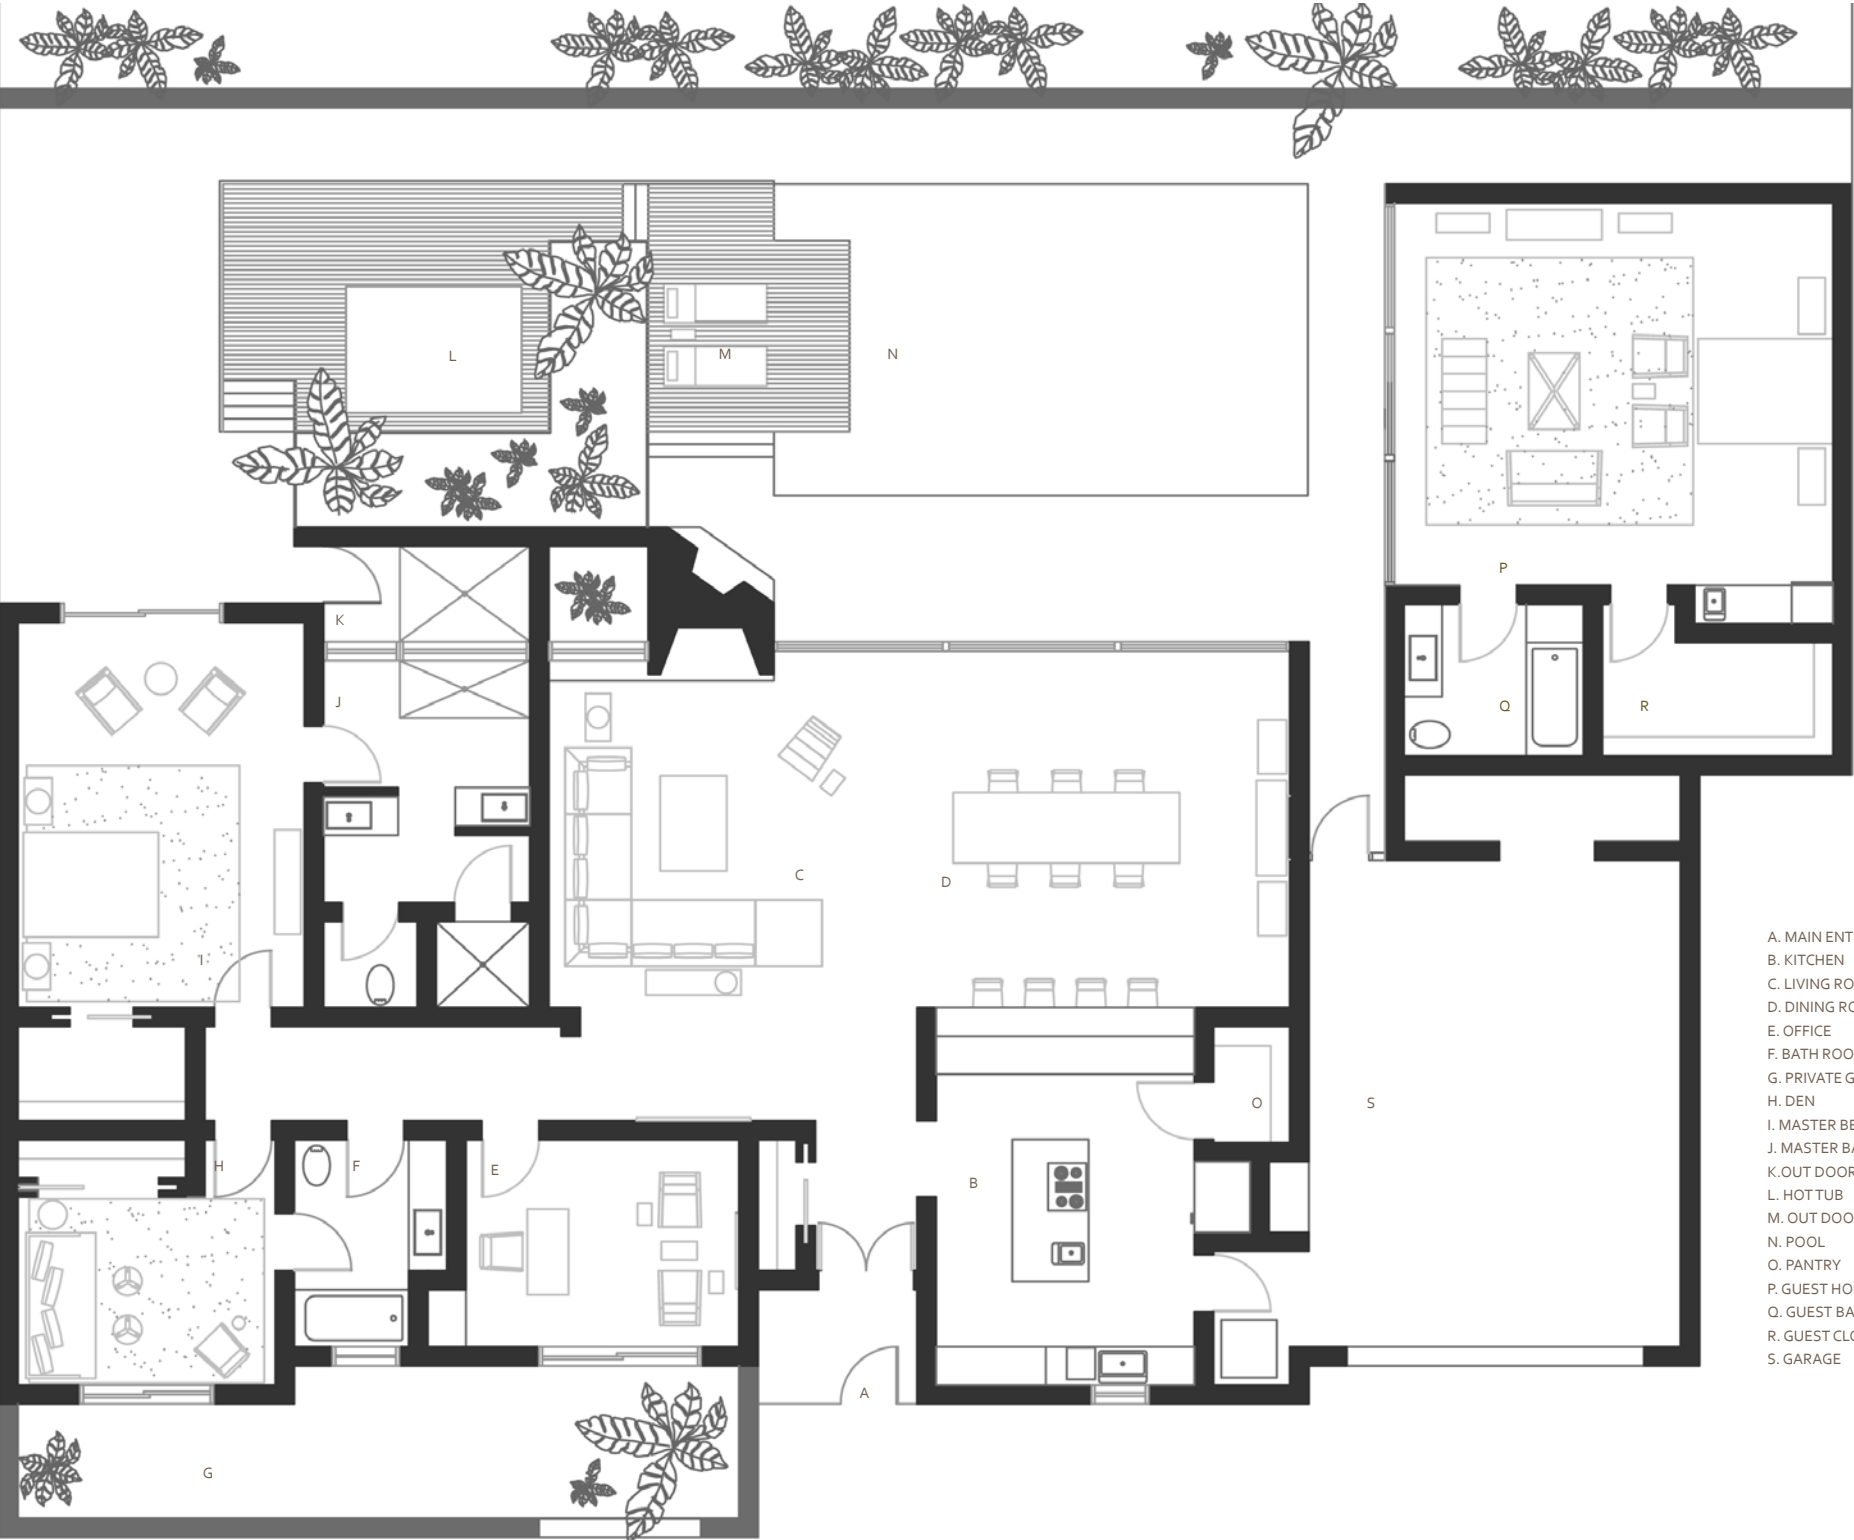

PERSPECTIVE

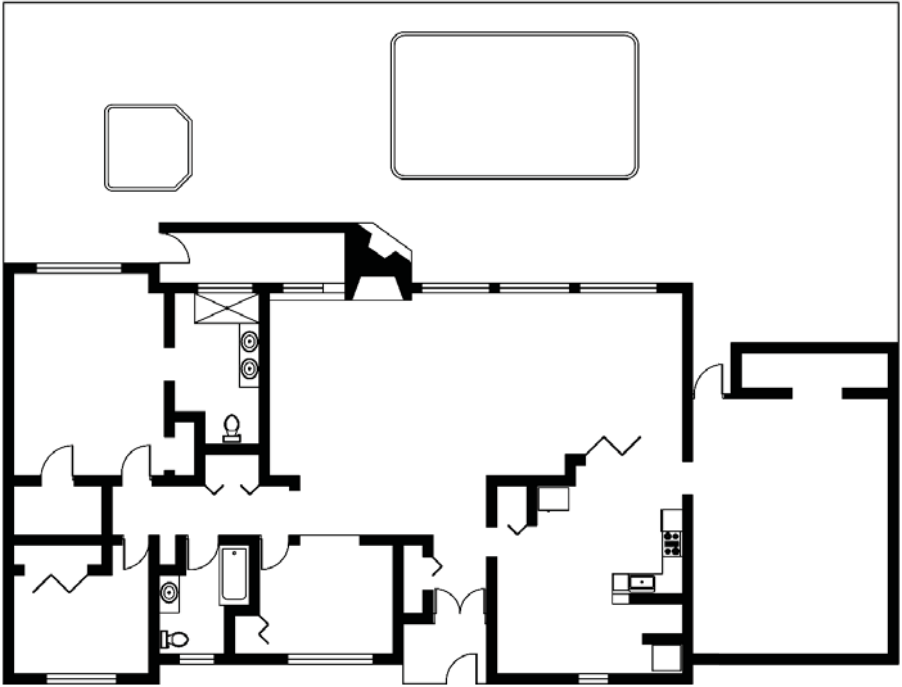

PALM SPRINGS RESIDENCE

To bring the outside in was in mind when redesigning the Barr’s Palm Springs home. Glass walls that open spaces was the bight idea. Each room is surrounded with original Mid Century period pieces, Mixed with contemporary furniture that compliment each other.

Education

The Illinois Institute of Art, Chicago, IL
Bachelor of Fine Arts, Interior Design
CIDA Accredited

Work Experience

Intern

David Sutherland, Chicago, IL
March 2011 - June 2011

- Interacted with clients
- Maintained and organized finishes and literature
- Prepared and assembled material sample presentations
- Assisted with showroom preparation for NeoCon 2011

Outside Sales Representative

The Bright Group, Chicago, IL
June 2007 - November 2009

- Responsible for Midwest Territory
- Represented 9 furniture lines, 3 lighting lines, and 2 textile lines
- Presented new product to design firms
- Coordinated special events with clients
- Worked in tandem with workrooms to insure a correct and timely completion of orders
- Coordinated bids.

Design Associate

Home Element, Chicago, IL
June 2006 - November 2007

- Merchandised
- Assisted clients with product selection
- AutoCAD documents
- Home visitation
- Prepared orders and invoicing
- Prepared budgets

Qualifications

- Fluent in Spanish
- AutoCAD
- Google SketchUp
- Adobe PhotoShop, InDesign
- Microsoft Office Programs; Word, Excel, and PowerPoint
- Hand Drafting, Rendering
- Furniture Design
