

Welcome to the 2011 Health Directory

The Rockford Register Star and HealthyRockford.com offer this annual list of health care professionals and providers in the Rock River Valley.

For more than a decade, it has been the comprehensive guide saved by families and health professionals.

You can also find this directory online 24/7 at HealthyRockford.com, your one-stop shop for health information.

You can search listings by physician, city, specialty, gender and letter name.

Then bookmark the site and come back to find local experts, news, advice, calendar events, job listings and helpful links. In addition to the Web site and this directory, you can find HealthyRockford.com in print in three places:

Each Sunday in the **Register Star's Life&Style** section
Daily in the **Register Star's GO** section

Twice a year inside special issues of **Rockford Woman**, a magazine by, for and about women.

What you'll find in this booklet: Physicians are listed by specialty. For each listing, you will find basic information such as hospital affiliations, clinic name, address, phone number and education. For enhanced listings, you'll also find Web site addresses and residency information.

Abbreviations for hospital affiliations:

- MHS Mercy Health System
- NP NorthPoint Health and Wellness Campus
- OSF OSF Saint Anthony Medical Center
- RHS Rockford Health System
- SAHS SwedishAmerican Health System
- UIC University of Illinois College of Medicine at Rockford
