

Arboretum Signage

Designed while under the employment of

CLOUD GEHSHAN ASSOCIATES

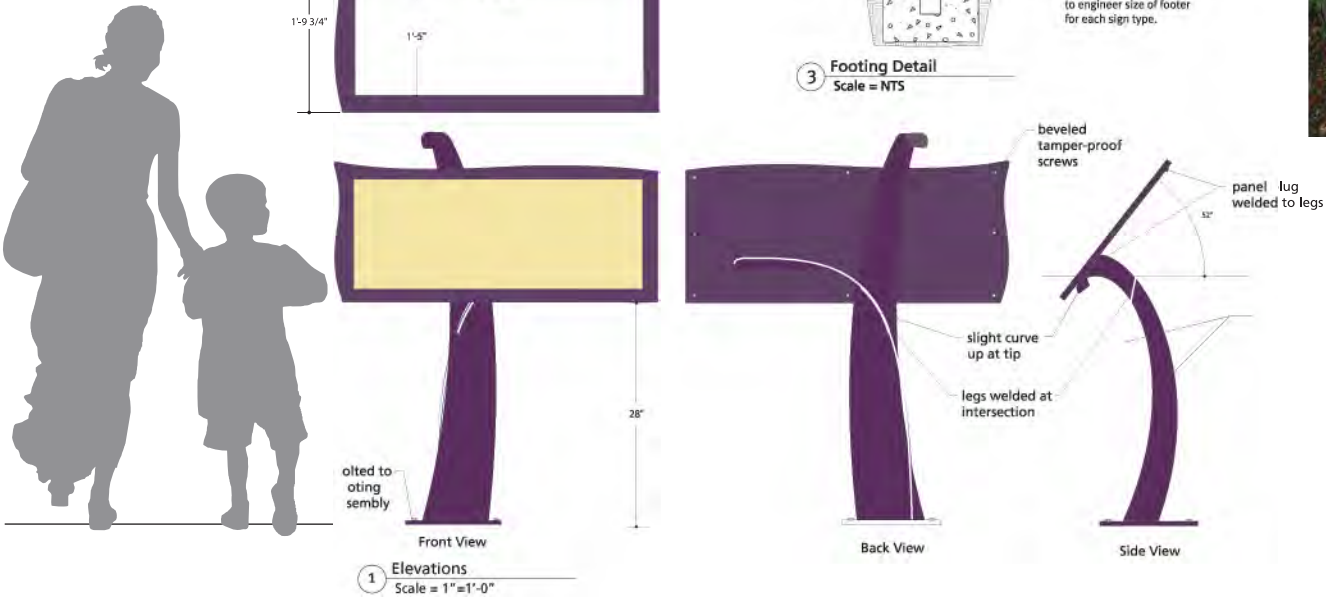

Design Consultants

A series of 35 panels lead the visitor through an audio tour of the arboretum.

1 Elevations (in the flat)  
scale: 3/16" = 1'-0"

All aspects of the design process were captured in this project that provided interpretive signage for an arboretum. My role involved refinement of the structural design including model building and drawings as well as the graphic layout of the plant ID signs.
