

Rehabilitation Center - **Presidential Oaks**

The Rehabilitation Center at Presidential Oaks provides therapy following a hospital stay due to an acute illness, a joint replacement or an injury. Medicare requires hospitals to provide you with a list of ALL centers in your area. If they don't offer you one, ASK FOR IT.

All of our licensed therapists work with patients to develop and implement a rehabilitation and recovery plan that is best-suited to their individual needs.

Join us for our *Summer Concert Series & Activities*, all open and free to the public! Log onto our website for an updated list of events
