## WALK @ EASYTONE

With in-built balance pods and Moving Air Technology that create micro-instability with each step, EASYTONE amps up your regular fitness routine and reduces body fat by up to 2.5%\*. So walk with EASYTONE and get a smokin' hot bod that makes sure all eyes are on you wherever you go!

**EASYTONE**  
WITH MOVING AIR TECHNOLOGY

\*An independent 12-week study found that women, between 22 and 39, who wore EasyTone shoes during a 3x/week supervised aerobic walking program reduced their body fat by an average of 2.5%. While no weight loss occurred, the reduction in body fat for the women wearing EasyTone shoes corresponded to an equal beneficial increase in lean body mass. Individual results may vary. Study not performed on EasyTone+ or EasyTone Too shoes.
