

FINALLY, A CAR
THAT CHARGES IT'S BATTERY
INSTEAD OF YOUR VISA.©

Honda Insight

The gasoline-electric hybrid Insight achieves 68 miles per gallon on the highway and an amazing 70 mile range on one tank of fuel. An efficient 3-cylinder gasoline is combined with an electric motor, powered by advanced nickel plated hybride batteries that never need to be plugged in. The aerodynamic exterior is constructed of lightweight yet extremely durable material. This innovative, high-tech two seater is spacious and comfortable. The Insight is truly a breakthrough in automotive design.
