

We protect the things you love the most...

American Collectors Insurance

American Collectors is best known for collector vehicle insurance, but our customers collect other items, too. Whether it's an attic full of model trains and sports memorabilia, or a garage full of automobilia, valuable collectibles deserve special protection.

Collectibles insurance covers theft, fire, earthquake, flood/water damage and even accidental breakage. The deductible is only \$100 per occurrence. In the event of total loss, claims are paid on an Agreed Value basis. Compare this to the coverage provided by your homeowner's policy, and you'll see why collectibles insurance is so important!

One blanket policy protects all the qualifying* collections in your household (e.g., toys, decorative collectibles, die-cast models, dolls, etc.) and coverage is affordable - just \$75 per year for up to \$10,000 of protection. If you have more than \$10,000 worth of collectibles, additional coverage is available.

*Coverage is not currently available for coins, stamps, or other paper collectibles, (such as sports cards), record albums, videos, china/flatware, jewelry, firearms or fine art.
