Cimorelli

the journey

... things you should remember to do every day...  
... it can be ordering a different...  
... statistics show if you learn...  
... you'll also be a much better...  
... helps you to forgive and...  
... how that works...  
... smile over when...  
... walking, actually you're...  
... or breathe. Don't...  
... and aware of...  
... moment. Remember...  
... the next...  
... on yourself...  
... much on...  
... these resolutions to go back to the gym...  
... or go for a run, but do it for you...  
... not to lose ten pounds or fit...  
... someone else's idea of what you...  
... need. Do it because you can go...  
... that extra mile. Do it because...  
... pushing yourself is worth it...  
... think about your grandmother and...  
... how hard she worked her whole life...  
... think about your best friend...  
... that it always makes you feel better...  
... believe in yourself...  
... ability to do great...  
... life, no one...  
... go to explore, change for the better, face my fears...  
... realize that the world is...  
... much bigger than...  
... we see...  
... to...
