

SPHINX Security Services Protective Services

We provides security services and protective force management to clients throughout India. The company fields two separate divisions to address unique demands of India.

Focus on Quality

We are renown for delivering higher quality security programs. We have the capability of responding to all security-related needs of our clients -- whether the needs are related to physical security manpower, electronic security, vulnerability analysis, training, or even internal investigations. In fact, we frequently operate as our clients' exclusive security department.

Corporate Commitment

SPHINX Security Services Programs maintains a firmly held, three-fold commitment to quality service. Our commitment applies to our clients, our employees, and our company.

Detective Services

The Investigations Division of SPHINX Security Services is the investigative arm of SPHINX Security Services. The Division has provided investigative services to corporate and government clients.

The Investigations Division has access to the latest investigative technology to include worldwide-automated databases, which support all investigative research requirements.

specializes in areas of threat/vulnerability assessment, security surveys and audits, technical investigations and expert testimony, etc.

Protective Services

Commercial Protective Services

SPHINX Security Services is second to none when it comes to serving the special requirements of premier office and residential properties. From concierge to investigations, SPHINX Security is equipped for the job. But it is responsiveness and a commitment to client needs that truly sets SPHINX Security apart.

Protective Services Philosophy

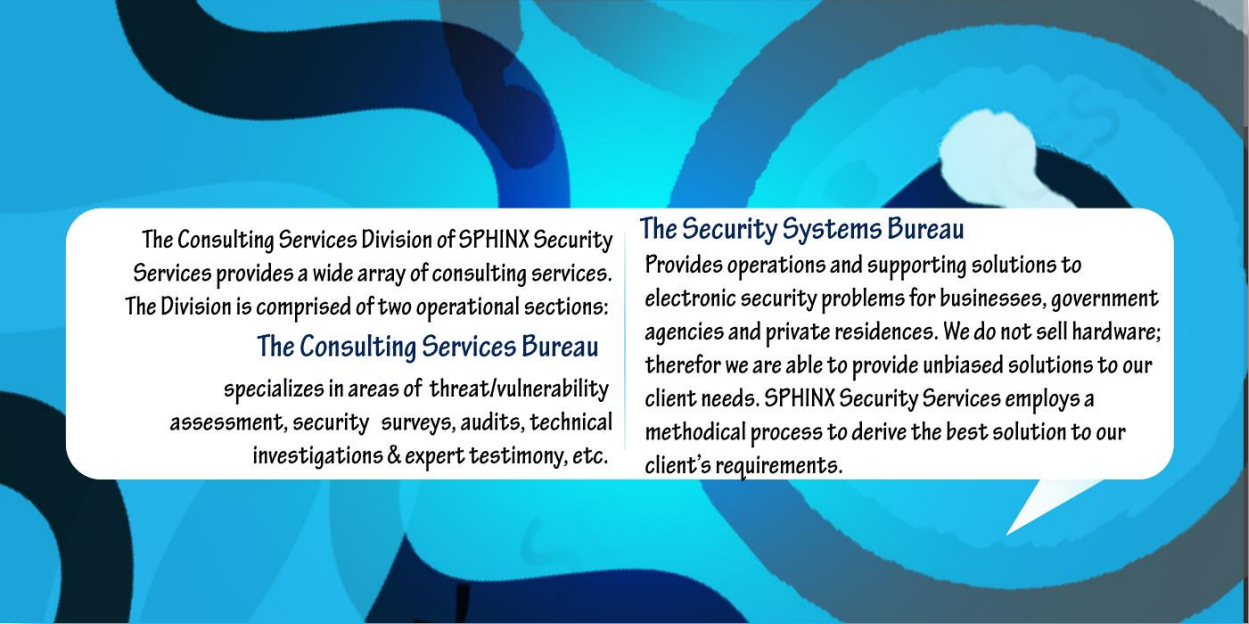

A highly PROACTIVE management philosophy is the trademark of the Protective Services Division of SPHINX Security Services. This philosophy is based upon a PREVENTATIVE approach to problem solving, i.e. identifying issues BEFORE they become major problems.

This process involves constant interaction between the SPHINX Security Services team, the Client management team & our on-site security personnel. It is no accident that Protective Services Division of SPHINX Security Services is one of the fastest growing security entities in the India.

This growth can be attributed to our proactive, hands on management philosophy together with our emphasis on quality service. Quality begins with the recruitment and selection of security personnel and extends to every aspect of contract administration and operations. In other words, our corporate philosophy is "Quality-- from the top down and the bottom up."

Consulting Services

The Consulting Services Division of SPHINX Security Services provides a wide array of consulting services. The Division is comprised of two operational sections:

The Consulting Services Bureau

specializes in areas of threat/vulnerability assessment, security surveys, audits, technical investigations & expert testimony, etc.

The Security Systems Bureau

Provides operations and supporting solutions to electronic security problems for businesses, government agencies and private residences. We do not sell hardware; therefore we are able to provide unbiased solutions to our client needs. SPHINX Security Services employs a methodical process to derive the best solution to our client's requirements.

Security Training Services

The Training Services Section of SPHINX Security Services, inc., provides a wide array of training services, both offered to the public and to our clients with customized security officer curriculums to meet the specific clients needs.

The state & federally certified SPHINX Security Services Training Academy is wholly owned by SPHINX Security Services & serves as Training Division of the Corporation.

PRIVATE INVESTIGATOR COURSES:

Investigator, Entry-Level Investigator, In-Service

GSA & FPS COURSES:

Basic 72-hour training Armed 40-hour training
Magnatometer & X-Ray Training GSA A-1 (Armed)

Mission

The Academy is dedicated to providing the most current & comprehensive training available in security & investigative professions. Academy maintains a threefold mission:

The first and primary mission is to ensure the professional training of all officers and personnel assigned to client sites of SPHINX Security Services.

Secondly, the Academy is mandated to provide best training available for individuals seeking employment in either commercial or government security services. The third mission function is to provide the best training available in the security or public safety arenas for either private/commercial or government clients. Programs and seminars which Academy staff have developed to meet unique corporate or government needs include:
