friendly
to good customers
less so to others

An intelligent fraud solution knows the difference between good customers and fraudsters.

Knowing someone's identity, even with 100% confidence, isn't enough. You need reputation to make the proper decision. iovation Reputation Manager™ provides online merchants with a proven, fact-based fraud management solution that uses reputations of the online customers' PCs to screen for fraudulent transactions.

To learn more about iovation, request the white paper, *Using Reputation of PCs to Detect and Prevent Online Retail Fraud*, by visiting www.iovation.com/etailer. To schedule a demo, email sales@iovation.com.
