Back Cover

When it comes to analog telephone entry systems, we have all heard it before:

- > Inconvenient times to make updates or pull transactions
- > The interface is cumbersome and time-consuming
- > Poor sound quality
- > Hard to read screens
- > Tedious scrolling through long resident directories
- > Limited memory for resident info and credentials
- > Long distance fees
- > Slow connection times
- > Keys and keypads getting jammed
- > Visible wear on equipment

Yet no one has ever addressed all these concerns in a single outdoor access control system.  
**Until now.**

Introducing LiftMaster® IPAC.  
**The first Internet-enabled outdoor access control system with Voice over Internet Protocol (VoIP).**

You are forward thinking, technologically savvy, and one of our most innovative Partners.  
**We want you to be one of the first to sell IPAC.**

Lead the IPAC Revolution now and set yourself up for years of sales.

IPAC will change access control forever. Its innovative features will help make your Customer's job easier while enhancing the image of their community. Here are some of IPAC's top features to share with your Customers:

**It makes their job easier**

- > **Provides 24/7 real-time data management**, so there is no downtime or delays in directory updates.
- > **Uses VoIP technology over a high-speed Internet connection**, as digital technology is replacing traditional analog phone lines and won't be supported in the future.

**It enhances their property's image**

- > **Offers a full-screen experience with a touch interface**, so it is faster for residents and guests to come and go, reducing or eliminating lines at the gate or door.
- > **Features an aircraft aluminum alloy front panel and durable enclosure**, so IPAC's stylish design looks like new for years to come while withstanding the elements and every day use.

Technology is constantly changing. Things that we could not do a few years ago are now an indispensable part of our every day lives. Using technologies like this in the world of access control provides innovative solutions to common challenges.

By leading the IPAC Revolution, you are not only setting up your Customers' communities for years of quality service, but also positioning yourself to be a well-established IPAC Dealer.

Get your hands on this future technology today, and lead the industry into a new era.

**The tools you need are inside this binder. The opportunity to sell IPAC is yours.**

# INTRODUCING IPAC

The first Internet-enabled outdoor access control system with VoIP.  
A new era starts today. Right here. Right now.

**LiftMaster**

# WORK SMARTER, NOT HARDER

By harnessing the power of a high-speed connection, IPAC provides innovative online features that have previously been unavailable in outdoor access systems. This can help you streamline your work and reduce directory maintenance downtime, so your job can get done when it needs to be done.

# WORK MORE EFFICIENTLY

- > Make updates 24/7 through an IP address (no software to install) so you never have to take IPAC offline
- > Manage resident info from any browser on your LAN so you do not have to physically visit the unit
- > VoIP technology eliminates long distance fees and will be replacing old analog phone lines
- > 50,000-resident capacity means you never run out of system memory

# GIVE YOUR COMMUNITY AN UPGRADE

IPAC will keep your community looking modern and savvy with its intuitive, color touchscreen interface and attractive enclosure. Plus, it is built to withstand the elements and the demands of every day use, so it will look impressive for years.

## URNS HEADS EVERY TIME

- > Contemporary design will stay in style for years to come
- > Aircraft aluminum alloy front panel is rust, scratch and dent resistant
- > Weather-tight construction (IP65 rated)
- > Withstands -20°F to 130°F, providing year-round protection

## ACCESS FOR THE DIGITAL AGE

- > 10" color touchscreen is easy to use by your residents and guests
- > Full on-screen keyboard lets guests quickly find a resident's name without scrolling
- > Reflective coating and auto dimming lets anyone easily read the screen in any light
- > Durable protective screen withstands constant use while maintaining its responsiveness and readability

COMPARISON CHART

Get the IPAC that meets your needs.

We currently offer standalone and server models of IPAC. This gives you the flexibility of selecting the right model that works best for your building or community.

Feature	IPAC Standalone	IPAC Server
System Capacities		
Residents	50,000	50,000
Stored Events Buffer	50,000	500,000
Access Points–Gates or Doors	Up to 2	Up to 10 (LIC)*
Weigand Inputs	2 Programmable/2 Auxiliary	Up to 10
Panels per System	1	5
Groups per System	16	100
Holidays per System	32	100
Schedules per System	32	1,000
Cards per User	1	16
Anti-Passback (Timed or True) Zones	2	Unlimited
Credential Types	Weigand and PIN	Weigand and PIN
Card and PIN Access (2-Factor Credentials)	Yes	Yes
