WORKSTATIONS *Flo® 1770 Workstation*

The Metro Flo 1770 workstation is the ideal point-of-care computing solution for most facilities. It can be configured out-of-the-box or upgraded in the field to fit most applications, such as medication administration by adding our SecureRx™ Med Module. The 1770 provides an effective way to support meaningful use requirements in the short-term with a strong long-term ROI.

Hybrid-medication Workstation

1770RX Medication Workstation with swappable power

The 1770Rx combines the uptime and efficiency provided by the 1770 workstation with the accuracy and security of the Metro SecureRx™ medication delivery system. The result is a solution specifically designed to improve workflow by providing nurses with the information and medication they need where they need them most, the patient bedside. Easy-to-use software, individual patient bins, innovative power options, and several ergonomic features make the 1770Rx the ideal solution for medication delivery at the patient bedside.

Accuracy and efficiency at the patient bedside.
