

**To whom it may concern**

Mr. Byron PAGCALIWAGAN is a designer in footwear and bags design. This requires a full range of knowledge in trends, method, drawing, creativity and computer skills.

During the 2009 - 2010 college year I teach him at CREAPOLE (design university of Paris) design in sport and fashion accessories such as footwear and bags (leather goods). He was in the top 5 students during this year.

Then he worked in my studio (COLIBRIDESIGN) during 6 months. Byron has been fully involved in my team and he developed happiness and serenity atmosphere. He got a very high level of sketches. He reached the goals even when we were stressed and overbooked. We delivered the 300 bags Spring Summer 2012 collection for Converse France, the Spring Summer 2012 New Balance bag collection as well as the Dragon sea Fall Winter 2011 shoe collection.

**I will highly recommend him for any footwear or bags designer job.**

Benoit DOUHERET  
Director of Colibri design
