Make a Bold Statement

SYDNEY EVAN DESIGNER ROSANNE KARMES HAS HER FINGER ON THE PULSE. Karmes, who says she designs "classics with a twist," has never chased fleeting trends. Her closet of Morgane Le Fay, Smythe, Theory, Equipment and Gaultier is a testament to her interest in enduring luxury. By surrounding herself with elements of beauty, interesting friends and stimulating books, and jetting to far-corners of the earth, her intense curiosity about the world around us has resulted in a collection that resonates and remains timeless.

Make a statement at your next cocktail party with pavé diamond and sapphire ball rings.

Own it! Work in a chain ring, bold symbols of protection and a classic skull with white enamel teeth.

Don't choose just one. Mix metals and styles to create your own signature look.

STACKING RINGS: THE MORE THE MERRIER

Goodbye predictable! We've been piling on the baubles for some time now. Take a cue from the runway and stack 'em high. Forget what matches, forget the rules. Throw it all on, and surprise, you might find it works. Pair edgy spikes with soft delicate bands and a signature SE love ring. Shift from office to cocktail hour with the addition of a bold statement ring.
