

# The Minx Style

Before

Start by lifting hair into a high smooth pony tail. Spray with Senscience Silk Finish Firm Hold Hair Spray.

Taking a small amount of hair from the pony tail, wrap the hair firmly around the pony tail to create a lift at the base of the shape.

Using hot rollers (of various sizes) spiral wind each sprayed section in the same direction and secure. Continue until you run out of hair. Allow rollers to cool thoroughly.

Once hair has cooled, remove rollers and brush hair together with a paddle brush, allowing the hair to form waves. Push hair back on itself to show your 'S' shape.
