

The vision for the Project is one that captures the unique pastoral setting of the site and its surrounds and on is developed in harmony with its natural surroundings. Water features and green areas will be developed extensively to soften the impact of the built environment. Architecture and site planning will be reflective of the Mediterranean way of living – stylist, social, and upbeat. Construction materials and methods will be environmentally correct and promote sustainability. The Project consists of over 500 housing units, including apartments, villas, and townhouses. The site also includes a boutique hotel, golf course and multiple clubhouses.

PROJECT DATA

size	1,090,850 sm
cost	unknown
Program	Townhouses, Apartments, Villas, Goff Course, Boutique Hotel, Clubhouses
