30 years with Tektronix

-Magical moment that influenced your career or a hobby-

**“Watching on my television, in real time, as Neil Armstrong took his first steps on the moon remains one of the greatest reminders of the magic of technology.”**

-Ken Dobyns

### 20th patent

Self Adjusting Hold-off Trigger

This patent allows easier viewing of complicated signals.

### 21st patent

Waveform Compression and Display

This patent provides a more insightful view of complex signals.

### 22nd patent

Simple Integrated Control for Zoom/Pan Functions

This patent allows easy navigation of long acquisitions.

### 23rd patent

Drawing Waveforms in No Dead Time Acquisition System

This patent allows easy navigation of long acquisitions.
