Electrolux Totem

Modular Cooking System

Totem is a multi - functional modular food preparation and cooking system. Simply build, stack and flip the units to create the Totem you require. Due to the simplistic design it has the

ability to perform in any situation, as it requires no mains power source due to the exterior Ensol coating. With the ability to cook, chill, and clean Totem is capable of many daily tasks but requires

less energy and space. The unique interaction method enables you to create a very personal practical totem suitable for your needs. Exterior skins are also available for visual personalisation.
