

# Aeron® Chairs

## Design

Imaginative design, fast-forward ergonomics and a look so distinctive that it's probably the only office chair that people can identify by name.

The Aeron chair didn't end up in the Museum of Modern Art's permanent collection just because it looks cool. Although it does. Its looks are only the beginning. Aeron accommodates both the sitter and the environment. It adapts naturally to virtually every body.

## Features

### **We are serious about comfort. Period.**

- Posture fit puts you at ease, even if you sit for hours.
- No pressure on your lower spine.
- Kinemat tilt mechanism lets you move effortlessly.

*Your spine stays aligned and you avoid back pain.*

### **First Chair to Lose the Foam**

- The Pellicle conforms to your body. It does what cushions can't.
- Keeps the pressure spread across your body.

*Relives aches and pains and fatigue.*

### **It's Got the Look**

- It fits right in high-tech, casual, elegant, or home office.
- Range of finish options.

*Create the Aeron you really want.*

**Earth-friendly**

94% recyclable

Certified to MBDC Cradle to Cradle  Silver

Greenguard certified and can contribute to LEED certification

**Warranty**

Aeron is warranted to be free from defects in design, materials and workmanship for a period of 12 years, 24/7 from the date of delivery. The pneumatic cylinder, textiles, vinyl, leather and other covering materials are warranted for three years. Uniquely, the Pellicle suspension membrane (seat mesh) on the Aeron chair is guaranteed for a period of five years in 24-hour use.
