

Mirra® Chairs

HermanMiller

## Design

A happy union of seemingly incompatible concepts:  
 More support and less material.  
 High performance and attractive price.  
 Fewer adjustments and better fit.

## Features

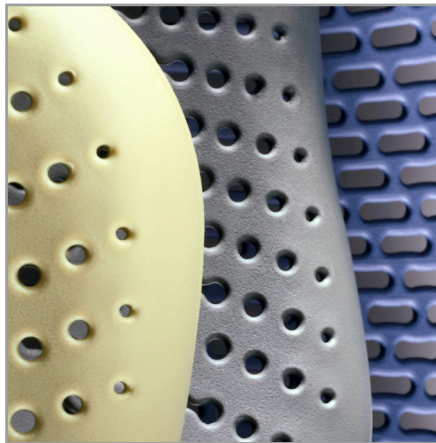

### Supports your back

- Polymer pierced with 567 geometric shapes creates three flex zones.
- Creates flexibility for the right ergonomic support and natural adjustment.
- The TriFlex backrest accommodates individual sizes and postures.
- PostureFit keeps your lower back aligned.

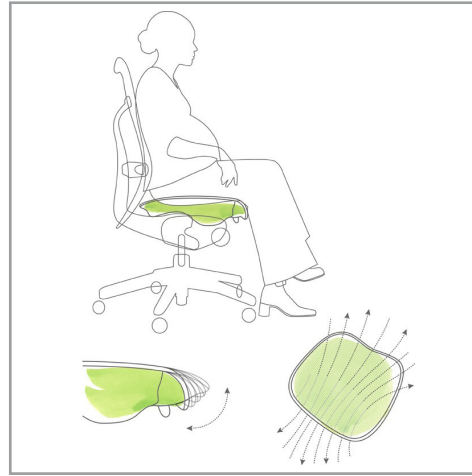

*Allows natural movement and you stay relaxed and alert.*

### Get a Good Seat

- AirWeave suspension adjusts itself as soon as you sit.
- The FlexFront ensures that spine support is always there for you.
- Harmonic tilt mechanism always gives you a smooth and balanced ride.

*Keeps you in control and allows your body to pivot naturally at the ankles, knees, and hips.*

**Mirra is a green chair**

Made of 42% recycled materials, it has no PVC in its construction.

It's 96% recyclable and disassembles easily.

The Mirra chair is the first Herman Miller product to be evaluated using the McDonough Braungart Design Chemistry "Cradle to Cradle"  Design Protocol and is MBDC Cradle-to-Cradle certified.

GREENGUARD certified and may contribute to LEED credits.

**Warranty**

The warranty for Mirra is 12 years for the chair, 5 years for AireWeave, 3 years for vinyl pads and gas lift cylinder. The warranty applies to the chair in up to 24-hour use.
