

# SYSTEM #2:

## PROBLEM:

NOT ENOUGH PEOPLE RIDING BIKES INTO AND OUT OF THE CBD.

"BIKE HIGHWAY". IDEALLY WITH NO STOPS TO INCREASE FLOW. NO WALKERS DURING PEAK HOURS. TRAFFIC DIRECTION SWITCHES IN EVENING.

## DETERMINING PROBLEMS:

- AWKWARD TAKING BIKES ON TRAINS.
- MANY PEOPLE CAN'T RIDE THE FULL DISTANCE FROM THEIR HOUSE TO THE CITY.
- TOO MANY CARS ON ROADS, MAKES IT DANGEROUS FOR BIKES.
