The Arctic Front: Warming the Global Economy

The Arctic is the Future. Opportunities are arising as quickly as the ice is melting. Within the next century the Arctic will be going through many changes. Environmental changes will lead to societal changes, which will reshape the Arctic as we know it.

Arctic Front's goal is to insure the responsible growth of the Arctic as a whole. The Arctic must be explored with respect for nature and the environment, while ensuring the welfare and safety of its people. We aim to embrace the Arctic, not exploit it.

Day 1

On Friday, Arctic Front will discuss the history of the Arctic. This day covers how the Arctic came about scientifically, as well as the development of its people. By examining the past we help us further understand where we are going.

Day 2

On Saturday, Arctic Front will discuss the present situation facing the Arctic. This day covers the conditions affecting the Arctic and how they are being handled. By assessing the situation we are better equipped to move forward.

Day 3

On Sunday, Arctic Front will discuss the future of the Arctic. This day covers the exploration of possibilities and the creation of regulations. Investment plans will also be discussed. New opportunities are awaiting you, do not let the Future pass you by.

DAY 1

DAY 2

DAY 3

DAY 3 (The Future: Exploring the Possibilities)

9AM - Keynote Speaker - Gustaf Lind

10AM - Exploring the Possibilities

- Steinar Vaage (*Tapping into the world's undiscovered gas and oil*)
- Henrik Falck (*Unearthing the Arctic's precious minerals*)
- Bragi Arnason (*Professor Hydrogen talks sustainable energy*)

12PM - Lunch

1PM - Creating Regulations to Ensure Conservation

- Maren Esmark (*Regulating resource extraction*)
- Geir Ulfstein (*Governing Arctic waters*)
- Frederick Hauge (*Emission regulations*)

3PM - Investing in the Arctic

- Ólafur Ragnar Grímsson (*Future plans and opportunities in Iceland*)
- Jakob Edvard Kuupik Kleist (*Future plans and opportunities in Greenland*)
- Stephen Joseph Harper (*Future plans and opportunities in Canada*)

5PM - Closing Remarks
