Tips

Begin with a key word. What are you selling? Pick a category. Describe your item. Use as few abbreviations as possible. If you do use abbreviations, make sure they are standard abbreviations. The more information you put, the better for the reader, but put what you think will sell your item. **Add a photo for maximum impact.** Bold text and borders call attention to your ad.

Decide what day you want your ad to start, or if it fits into one of our specials. Submit your ad and watch it sell! **After your ad has sold, call us before 2 pm to cancel it for the next day.**

*Check your ad the first day of publication for accuracy. The **Concord Monitor** will be responsible for errors only for the first insertion to the extent of a refund or credit and assumes no responsibility for ads accidentally omitted.

Classifieds are the region's biggest marketplace, reaching more than 45,000 readers a day. Try our new online ad service, where you have total control over your ad!
