

## 3D Rendering

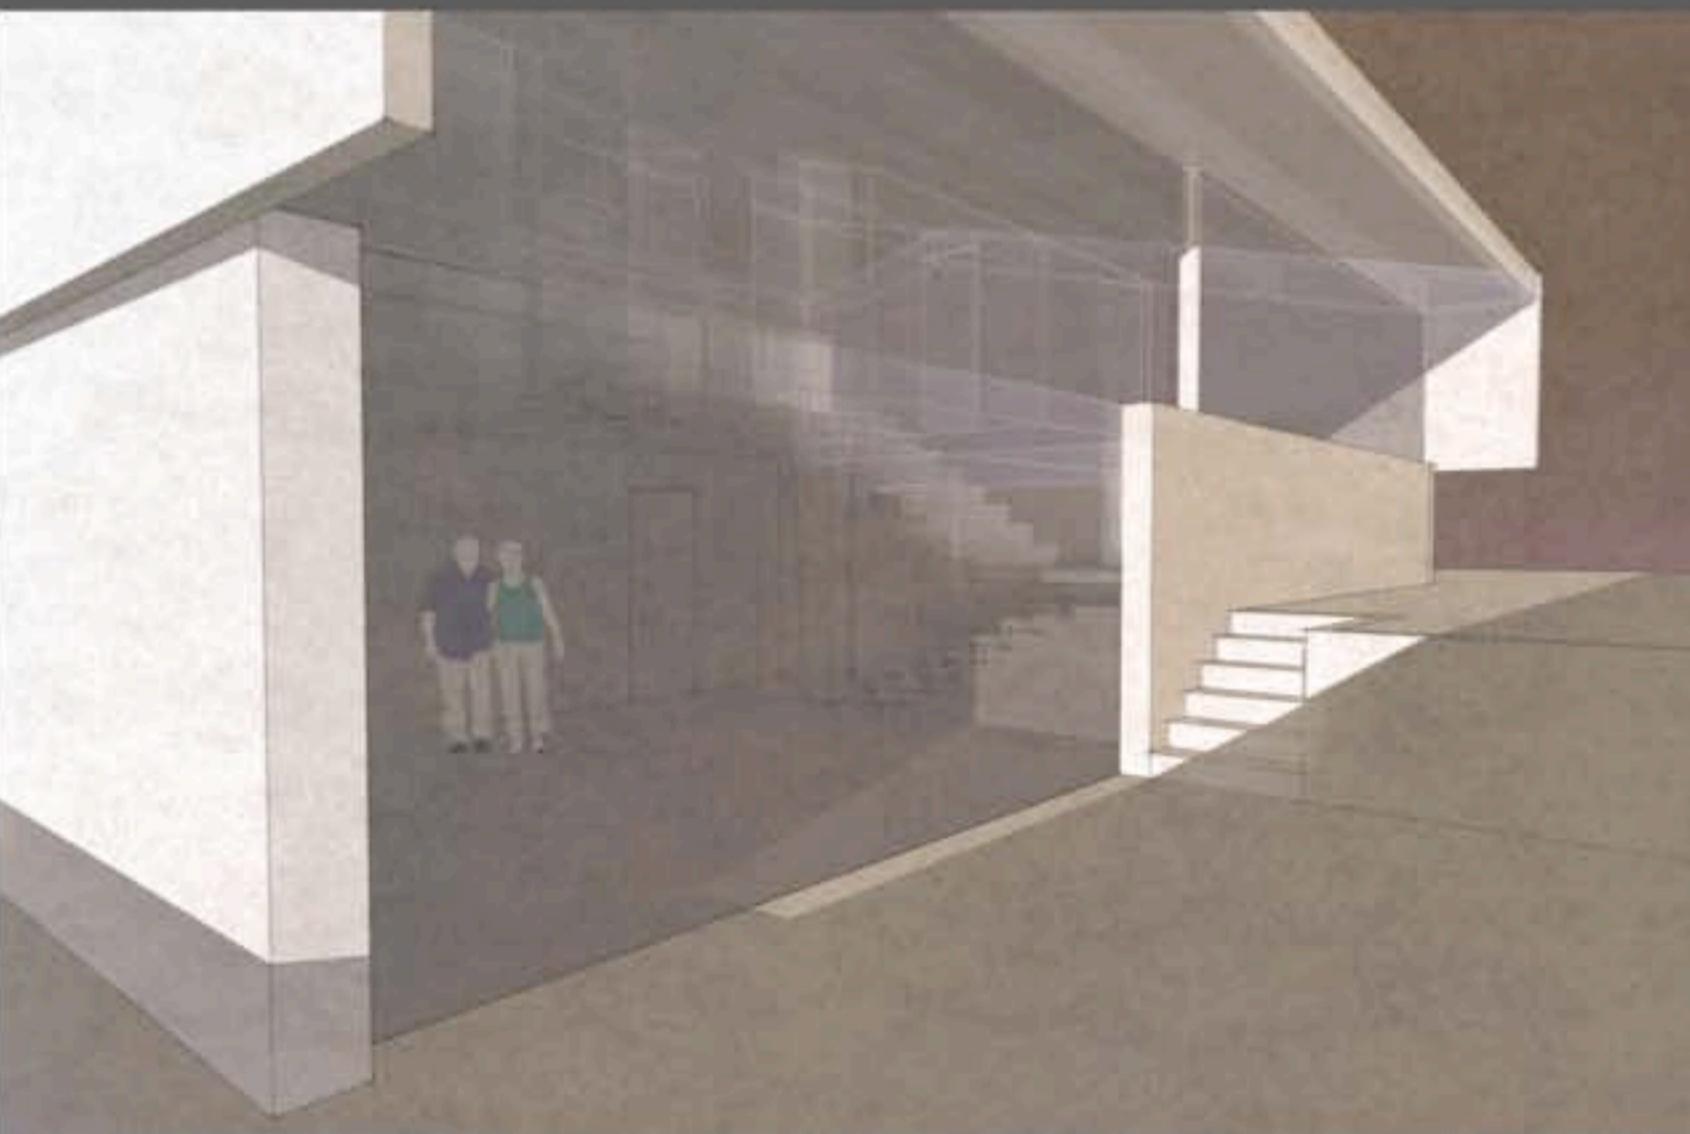

The Architecture school where I graduated from is known as FAU - USP (an abbreviation for *Faculdade de Arquitetura e Urbanismo da Universidade de São Paulo*);

It has been a hub for the Paulista Brutalist Modernism movement since the 1960s .

Many of the FAU - USP students and teachers created an assortment of relevant examples with this Paulista Brutalist Modern way of designing that was much more strict and constrained than the more famous Brazilian Modernism being produced in Rio de Janeiro and Brasilia during the same period

**Barjas Millan, São Paulo, SP, 1960**  
Warm perspective section – simulated pen & pencil

**OB-57 House Perspective rendering**  
Masonite texture plus some X-Ray effect

Softwares :  
Sketchup  
Photoshop

## Paulista Brutalist Modern 1960s Residences

October 2011

**Barjas Millan, São Paulo, SP, 1960**  
Rainy night cold perspective

**Barjas Millan, São Paulo, SP, 1960**  
grey tone perspective – simulated pencil
