Lights

AUGUST Think silver screen radiance. Platinum light surrounding Jean Harlow's hair. Plum velvet sparked with stars. Molten silver poured over lace. You know when to dim the lights, and when to turn them up.

Diva

SEPTEMBER Your strategy is simple. Be dramatic, but be taken seriously. You achieve this with sheer knits that reveal your sense of chic. With sensuous cashmere, velvet, Mongolian fur trim. You understand that it's all in the cut, where a skirt hits the calf, how a dress skims the body. Keep color simple, too. High-impact crimson, black and gold.
