

Lights

AUGUST Think silver screen radiance. Platinum light surrounding Jean Harlow's hair. Plum velvet sparked with stars. Molten silver poured over lace. You know when to dim the lights, and when to turn them up.

APRIL

Thrilling, warm and radiant. Gold's dazzle will never tarnish. Blond as spun straw, burnished as gold leaf, luminous in silk, linen and Lurex. Materials that reflect your brilliance, even in office light.

MAY

Shimmering, precious, mercurial. A sterling collection enhanced by the smooth darkness of midnight blue. Engraved with a romantic signature. Polished to a lustrous sheen. A mirror for your desires. Fine silver tailored for everyday use.
