

STEWART & STEVENSON REFURBISHMENT

www.stewartandstevenson.com

BEFORE

Stewart & Stevenson Rig and Power Products facilities in Odessa, Texas, have combined capabilities to offer oilfield equipment refurbishment to West Texas oilfield operators.

From headlights to tail lights, Stewart & Stevenson will refurbish your oilfield units, paint them with your company's colors and return them in like new condition that will extend their operating life at a fraction of the cost of new units.

Refurbishment includes repowering, rebuilding or installing new:

- Main and secondary engines
- Transmission
- Hydraulic system
- Trailer and all components
- Piping
- Blast, prime and paint

For every refurb project, Stewart & Stevenson provides a complete Scope of Work with detailed cost for each component, total cost estimate and estimated delivery date.

For your next equipment refurb, contact us.
