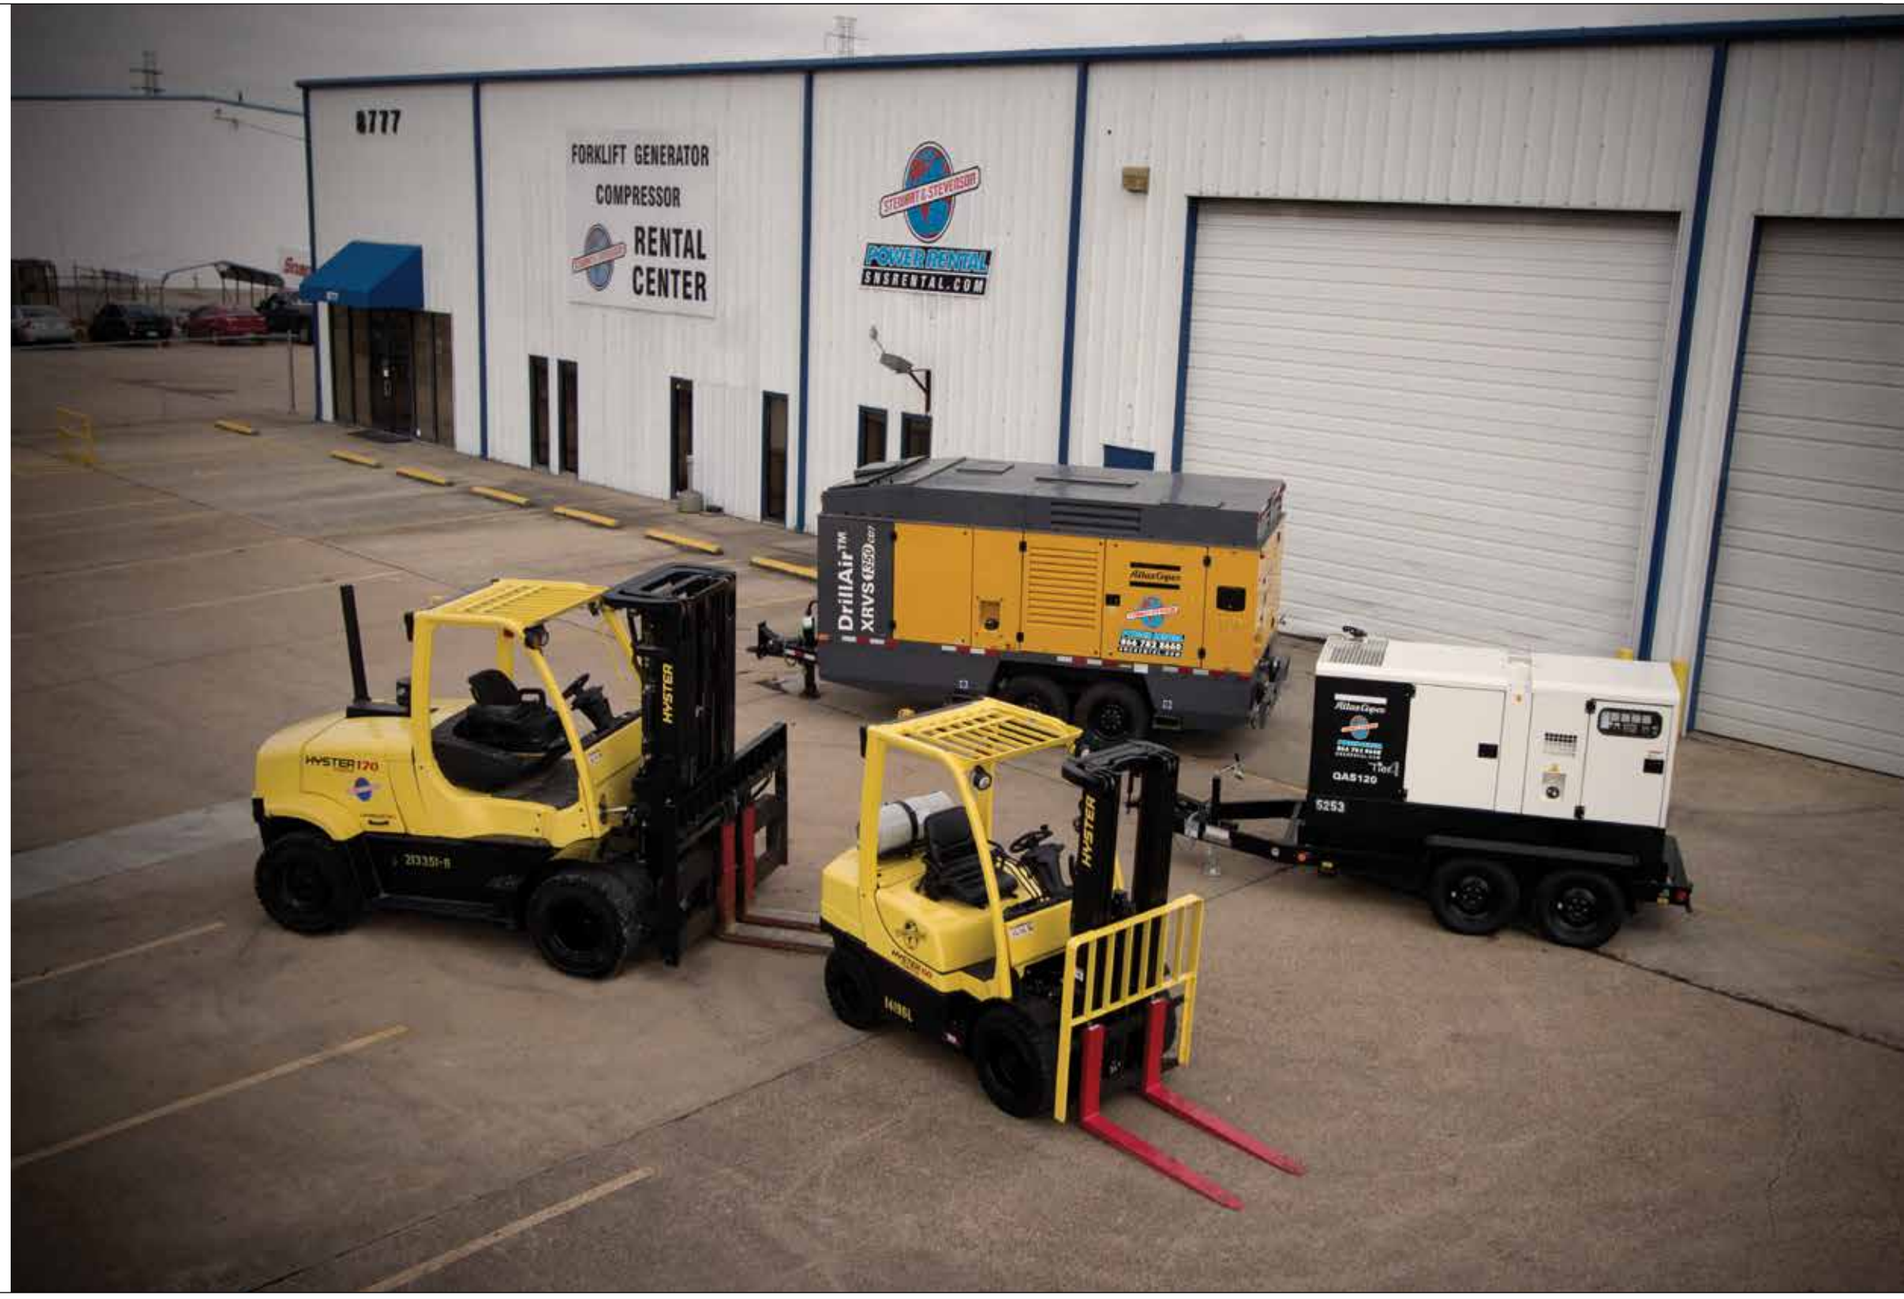
RENTAL EQUIPMENT

Stewart & Stevenson, headquartered in Houston, Texas since 1902, is a leading designer, manufacturer and marketer of specialized equipment and a leading provider of aftermarket parts and service to the oil and gas and other industries that we have served for over 100 years. Our diversified product offerings include equipment for well stimulation, well workover and service, drilling, coiled tubing, cementing, nitrogen pumping, power generation and electrical systems, as well as engines, transmissions and material handling equipment. We offer rental equipment for a broad range of customers.

Our rental business is primarily focused on customers who require power generation units, industrial air compressors, material handling equipment and Rail King railcar movers. We provide accessory products, such as cables, hoses, fuel cells, air dryers, air compressor boosters and ground heaters.

Rental equipment is available for short-term use and can be contracted for long-term rental by businesses in a variety of markets. Turnkey rental service, provided by dedicated technicians, includes delivery, set-up, fueling, maintenance and teardown. Stewart & Stevenson's rental technicians are available 24 hours a day, seven days a week to provide service support. Each truck in our service fleet is equipped with all parts and supplies necessary to provide onsite maintenance and repair of our rental equipment.



RENTAL GENERATORS

Stewart & Stevenson's rental generator systems offer from 50 to 2000 kW of power for oilfield, industrial, residential, entertainment and communication applications.

Features include:

- Trailer-mounted units from bumper pull to fifth wheel tractor pull
- 50 Hz or 60 Hz operation capability, single-phase or three-phase voltages on select units
- Double-walled fuel tank with 24-hour onboard fuel capacity, 1000 kW and below
- 3-way fuel valve to easily connect external fuel source for extended run on select units
- Customer convenient cable connections
- Hi/Lo voltage switchover on select units below 1000 kW
- Remote operation available on all units
- Stewart & Stevenson, MTU Onsite Energy, Multiquip and Atlas Copco brands

RENTAL AIR COMPRESSORS

Stewart & Stevenson's rental air compressor units serve industrial, oil and gas, petrochemical and medical industries.

Our air compressor fleet includes:

- Portable diesel HP air compressors that provide from 300 to 1300 cfm at 250 to 500 psi
- Portable diesel air compressors that provide instrument quality air from 375 to 1600 cfm at 125 to 150 psi
- Portable electric air compressors from 100 to 350 psi
- Compressed air treatment equipment, including after-coolers (5 to 20 °F approach), that remove 65 to 70% of the moisture from the compressed air
- Refrigerated and dessicant air dryers that provide from 10 to 20,000 cfm (+38 to -100 °F dew point)
- Compressed air filters that supply instrument quality air

RENTAL FORKLIFTS

Stewart & Stevenson's rental forklifts fulfill a wide variety of material handling jobs: on the oil rig platform, on the loading dock, on the assembly line, at the cotton gin, on the construction site and in the warehouse. We offer the largest rental program in the region. Our rental experts are always available to assist clients in their selection of the lift truck with the features, benefits and specifications that perfectly match their application.

Our rental fleet includes:

- Hyster and Manitou forklifts
- Straight mast rough terrain models
- Cushman carts
- 800 rental units
- 3,000 to 55,000 lb lift capacities
- Electric and internal combustion industrial units
- LPG, electric and diesel fuel choices
