PORTFOLIO

M. Erçin OKURSOY

Middle East Technical University
Faculty of Architecture
Department of Industrial Design

Awards:

Istanbul Designweek 2008 Istanbul Taxi Workshop 1st Prize

Internships:

Tasarimussu Design Studio, 6 weeks, 2007
(concept design, 3D modelling, render)

Vestel Electronics, 4 weeks, 2006
(manufacturing, concept design, 3D modelling)

Computer Skills:

3D Modelling (rhinoceros, 3ds MAX, poser, solidworks)
2D Illustration (adobe photoshop, adobe illustrator, corel draw)
Microsoft Office Applications

HOOKAH 2006

A new evaluation of form of the hookah:
The high-tech form for use in pubs and home.
Multiple hoses for threesome use in
cafe&restaurants.

PRODUCT
DESIGN

FOUNTAIN

PRODUCT
DESIGN

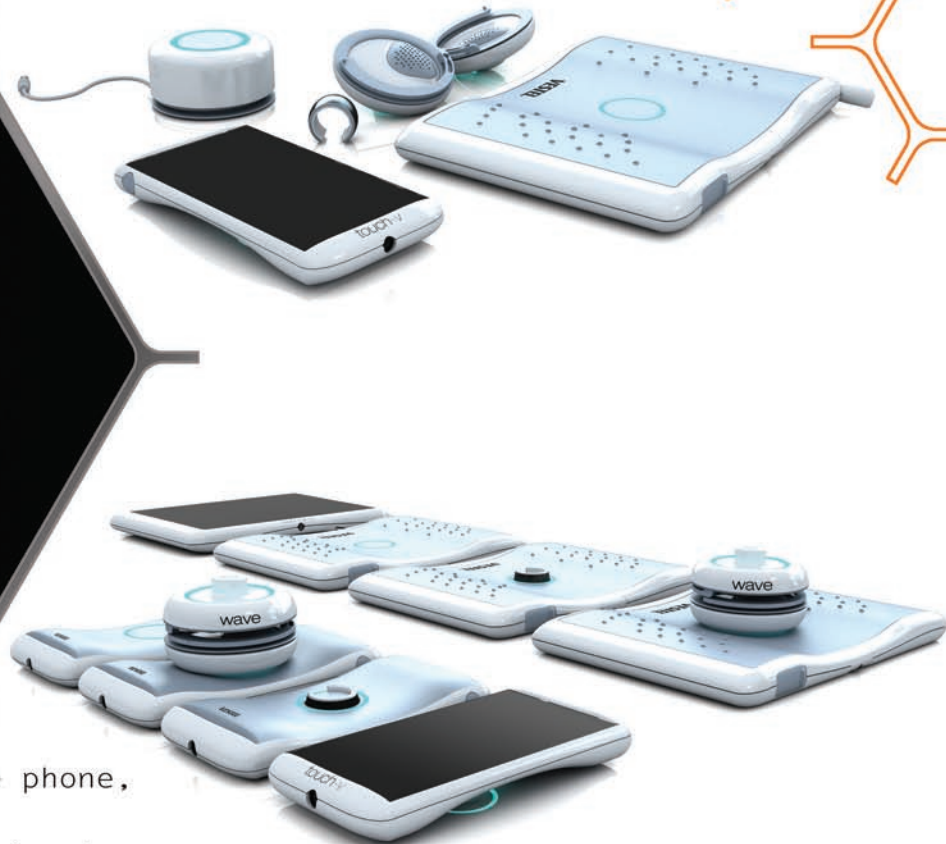

a promotion gift for
Turkish Exporters Assembly:
A fountain pen set with it's travelling case.

Fountain pen contains multiple nibs as italic,
bold or left handed nibs.

TOUCH

team work with Ahmet Bektes, Eda Kose, Oya Esenli

PRODUCT DESIGN

A new perspective for mobility in the near future:
A product family with ultra mobile PC, mobile phone, music player and a reminder ring.

The main principle of charging and data transfer is via touching rather than slots or jacks.

TOUCH-UMC

PRODUCT
DESIGN

A new type of interaction:

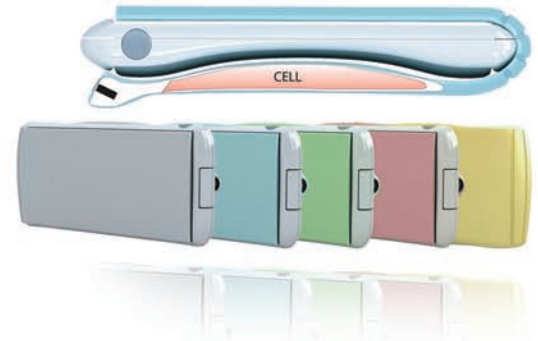

The new usage scenerio with the help of s.d.c. material allows to use all fingers while using the mobile pc

TOUCH-V

PRODUCT
DESIGN

sliding menu system allows to use multiple functions at the same time easily.

TOUCH-WAVE

PRODUCT
DESIGN

the connection of the units by turning

Data transfer &
charge

enjoy the cordless music:

touch_wave is a music player without cords or any separate component for memory. It is possible to transfer the files via touching the touch-umc or touch-v from back.

ORBIS

PRODUCT
DESIGN

A new decorative home theater system:

Orbis rised from the demand for electronic devices matching with the interior instead of contradicting with it. Orbis includes a bluray player, projector and remote control.

ORBIS

PRODUCT
DESIGN

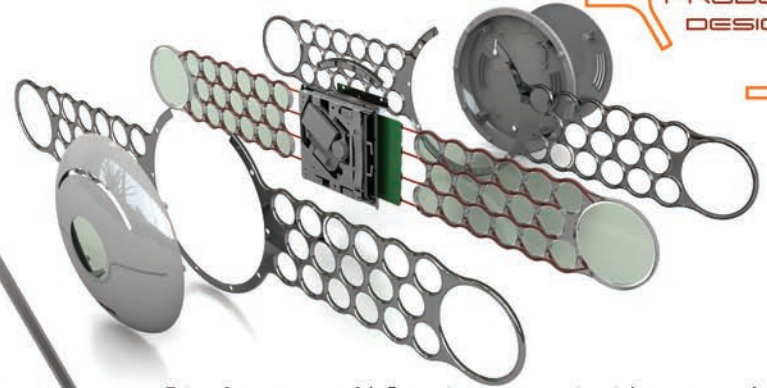

The Projector:

Design process was mainly based on the ventilation problem of the projectors. Therefore use of perforated metal sheets with plastics was preferred for maximizing the air ventilation.

Also mounting to the roof without any chassis is a new feature for the product.

ORBIS

PRODUCT
DESIGN

It is possible to mount the product on the wall after removing the base.

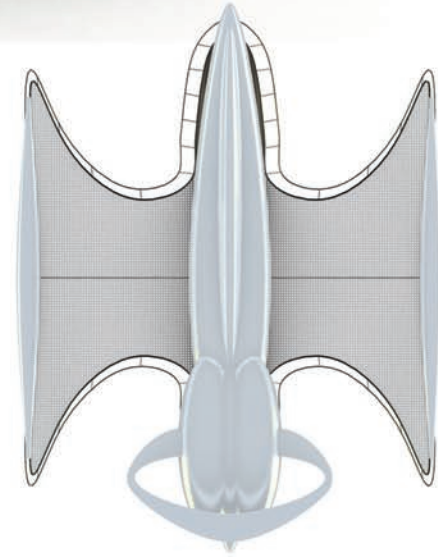

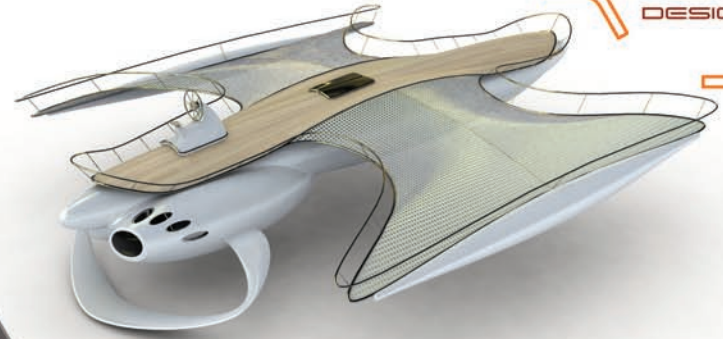

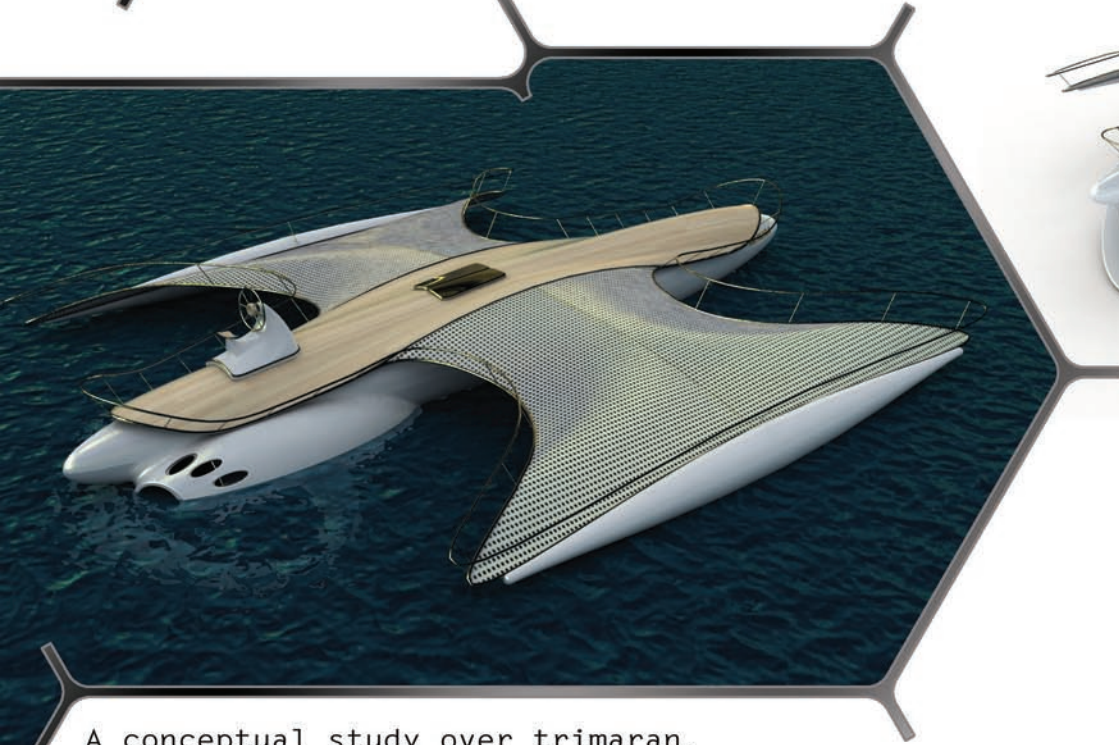

The Soundprojector:

In most of the products, designers used to manipulate the form of the cases to avoid the bulky look of the speakers but it is possible to manufacture thinner systems with film speaker technology today.

REMORA

PRODUCT
DESIGN

A conceptual study over trimaran.
A study focused on a new aesthetic form with
a larger travelling environment than conventional ones'.

The elastic nets at both sides creates larger space for
enjoying your sunbath.
