

# BULLETIN BOARD SETS

*Susan B. Walker*

As Content Manager for the product development team, this small sampling of bulletin board sets showcases my creative ideas ranging from content-intensive to purely decorative design. It was my responsibility to not only use my background as a teacher to initiate curriculum themes and ideas, but also to develop those ideas, align them with state and national standards, write creative engaging copy, and direct the design on all bulletin board sets and collateral material.

Each bulletin board set was accompanied by a thoughtfully written and comprehensive Discovery Guide serving as an idea resource for teachers providing extension activities and display recommendations.
