

MICRO CONTROL CENTRE

Screen Flows

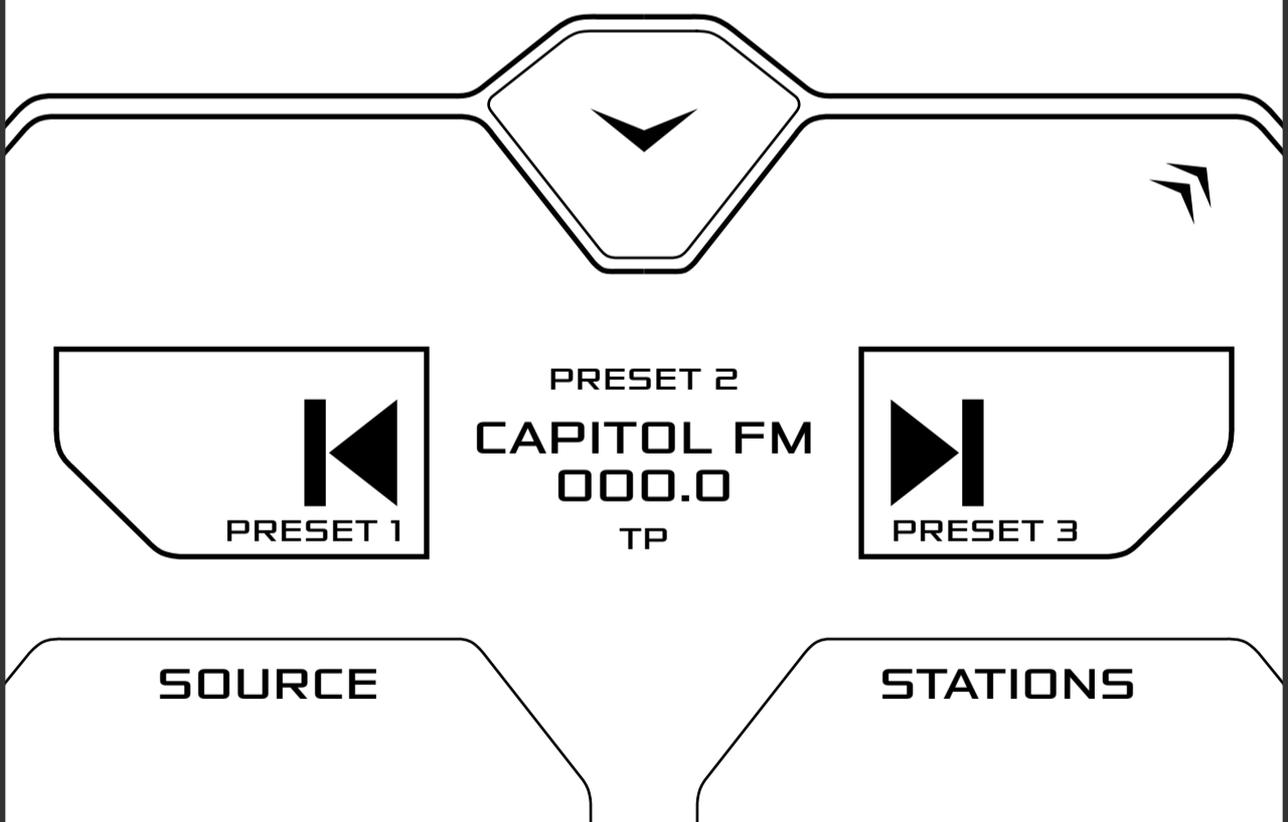

- Softkeys are contextual to what is displayed on the screen - when the MCC is closed the softkeys support the main app
- The indicator on arrow in the center points up when the MCC is closed and down when it is open; the indicator pulses when something is active in the MCC such as a phone call or alert

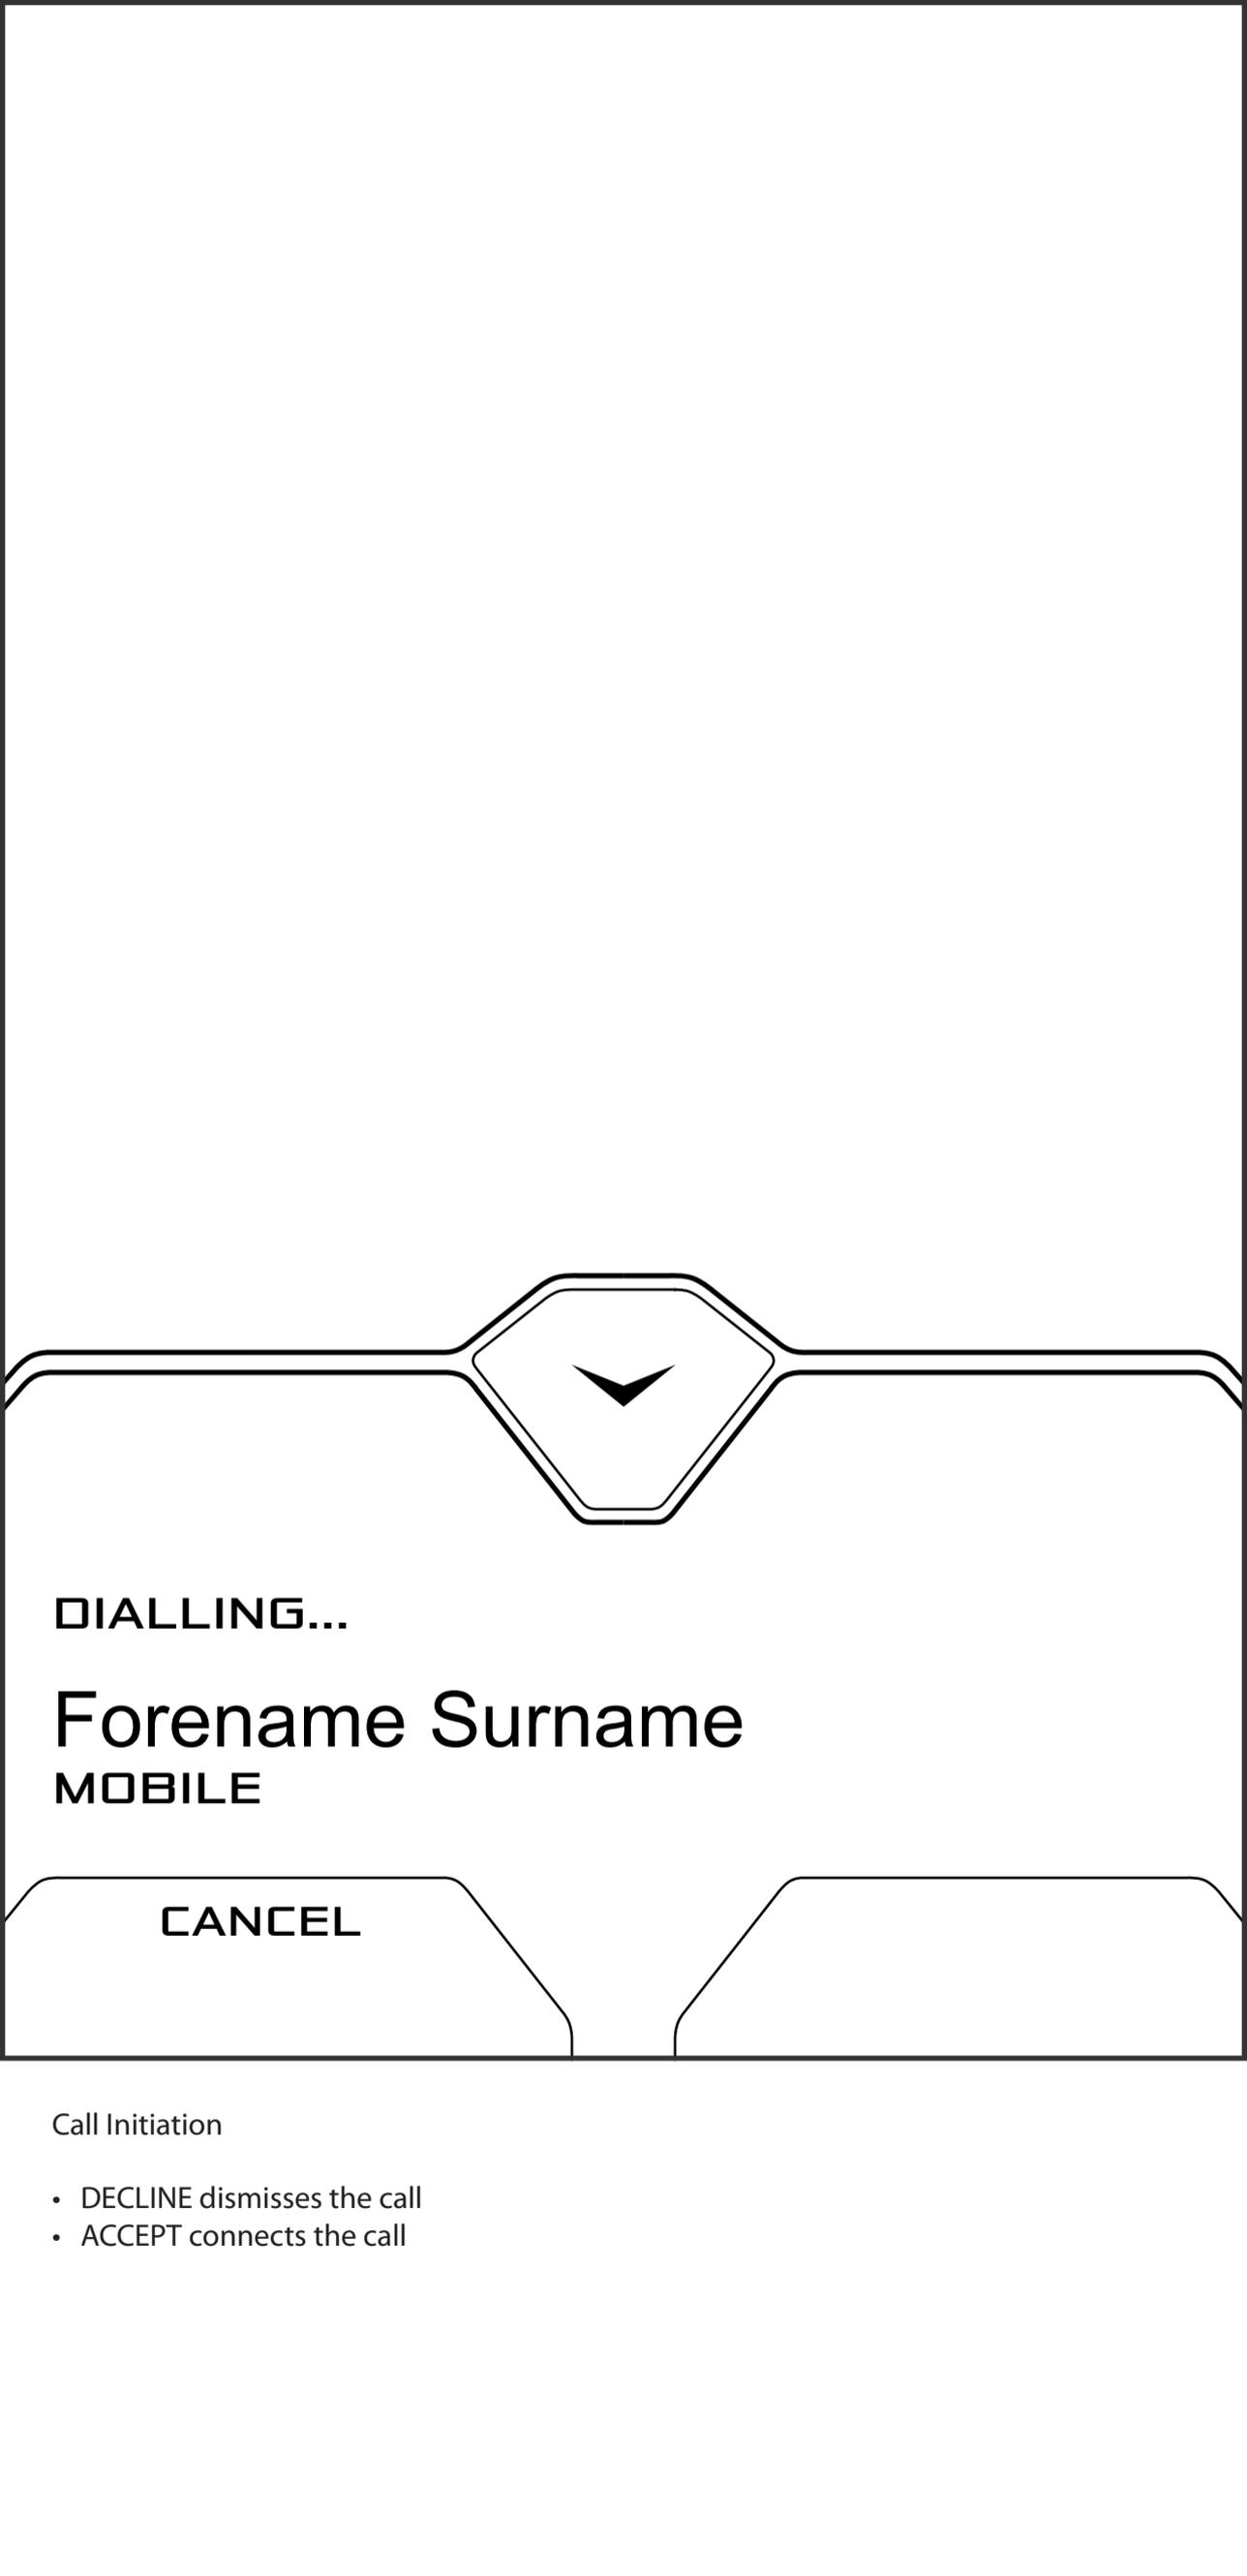

Media Player Micro-Controls

- Double arrow closes the MCC and brings the media player now playing screen up
- SOURCE goes to sources screen
- BROWSE goes to browse screen

Radio Micro-Controls

- Double arrow closes the MCC and brings the radio screen up
- SOURCE goes to sources screen
- STATIONS goes to the available stations screen
- NEXT goes to next preset station
- PREVIOUS goes to previous preset station
