

What we do best—

► Precision Machined Parts

Producing your parts quickly, cost-effectively, and with the quality you expect takes high quality, carefully maintained equipment run by experienced machinists. Our skilled and experienced machinists (some with 30 years in the business) and our ISO-based quality assurance processes ensure that your parts are made exactly to print.

► Quality You Can Count On

The quality of your parts is simply too important to risk by working with an uncertified supplier. Avoid the risk and the cost and time spent dealing with nonconforming parts and missed operations and processes by working with us. Because our Quality Management System complies with **ISO-9001:2008 standards** and is registered, you can be confident that your parts will be produced with the quality you need and expect.

► On-time delivery

Our on-time delivery rate is over 95%, and our standard turnaround time, including quoting, manufacturing, and shipping, is about four weeks (but if you need it quicker, we can probably do it.)

Delivering one-stop, hassle-free production from start to finish

When your parts require more than just machining, why waste time dealing with multiple quotes from multiple vendors? With only one call or e-mail, we'll put together a quote to quickly and cost-effectively produce your parts from start to finish. You'll save time, eliminate hassle, improve quality, and know you're getting the best possible price.

Our Lowest Possible Price

We run a lean shop with low overhead, and we pass those savings on to our customers. Our staff will work with you on getting your part made at the lowest possible cost and exactly to print.

Our Goal:

We are committed to make sure we earn—and keep—your business through great customer service, high quality parts and improving your bottom line.

Surpassing Your Quality Expectations

Our ISO-9001:2008 Registered Quality Management System and skilled and experienced machinists ensure that your parts are made exactly to print.

Your Parts Delivered When You Want Them

With our ON-TIME DELIVERY and FAST TURNAROUND, we're satisfying our customers in getting their parts to them when they want them.
