Furniture Design in Scandinavia  
 Danish Institute for Study Abroad  
 Copenhagen, Denmark  
 Senior Year

Maple  
 Dimensions: 48x 46 x 77cm  
 Seat Height: 45cm  
 Leg and Crossbars: 4 x 4cm

**Assignment:** Design and build a full scale prototype of a chair in the assigned material

**Spirit of the Assignment:** Intensive study of Scandinavian design used as inspiration for personal designs. Allotted amount of wood 200X50X4 cm.

**My Design:** A cantilevered seat and back made from 3mm slats which allows for flexibility in the wood and conforms to the user making a solid wood chair comfortable. My inspiration came from Bernt Petersen's cantilevered ply chair.
