The Gift Of Planning

Protecting Your Family With Final Arrangement Planning

Relieve your loved ones of unneeded pain and anguish...

If you are serious about planning, fill out this card, and give it to today's presenter. Then schedule an appointment with a Dignity Memorial planning expert.

The Process and Benefits of Pre-Arranging with the Dignity Memorial® Network

Dignity Memorial® network has spent years developing best practices for final arrangement planning, striving to make pre-arranging as easy as possible with a four-step planning process: Reflect, Record, Share and Arrange. Following these steps takes full advantage of the benefits of pre-arranging.

- Benefits are many:
- Give your loved ones time to think about how you want to be remembered; no time for little or no guesswork for your loved ones;
 - Ensure that all of your wishes are known;
 - Determine a financial support plan for your memorial;
 - Secure today's prices, avoiding unnecessary cost increases in the future.

These benefits and many more show you why pre-arranging is a gift to your loved ones, allowing them to focus on coming together to celebrate a life lived. The Dignity Memorial® network's FREE Personal Planning Guide helps make the pre-arranging process easier on you and your loved ones.

This guide contains helpful worksheets, questions and tips for making your own arrangements. It is a safe place to store documents and record important decisions and personal information, serving as a vital and lasting gift for your loved ones.

- Will your loved ones be confused with your wedding ring?
- If you are a veteran, how to prove your veteran's status!
- If your cemetery property is pre-arranged?
- Will your family know where to find your banking information?
- Will your family know where to find your insurance information?

These are just some examples of the 100+ questions that will require careful attention. While answering them may require thoughtful consideration on your part, imagine the difficulty for your loved ones if they don't have the answers themselves - and the added turmoil in the first few days following their loss.

Ensure that all of your wishes are known and
that everything will be just as you wanted...

Get the most from planning ahead by reflecting about your wishes now, so you are better prepared to record your final wishes in the planning guide.
