

VERIS

Live the Future

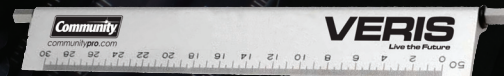

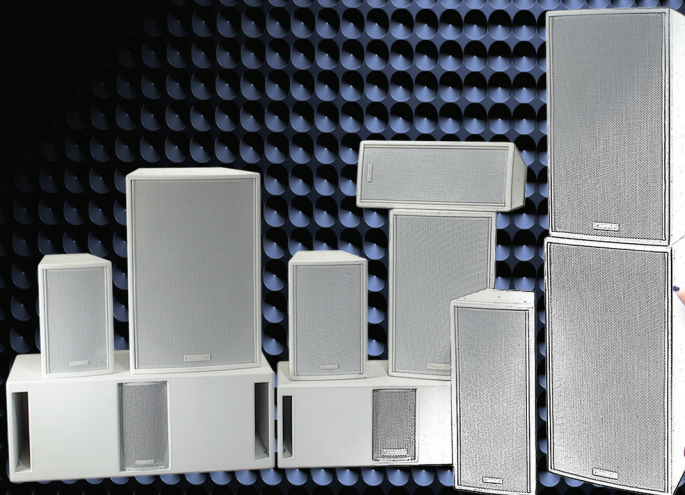

The VERIS collection provides contractors, system designers, and sound engineers with forward thinking tools to solve challenging acoustical problems.

Featuring ten models that range from small to moderate in size, VERIS loudspeakers were engineered to handle an enormous variety of applications with ease.

When your plans call for upgrading existing sound systems or for all-new construction, VERIS has an elegant solution for each aspect of your worship center. Whether you're seeking flawless intelligibility in the main sanctuary, or wish to deepen your connection to the congregation in your chapel, cry-room, classrooms, or recreation areas, there's a VERIS system to suit your needs without taxing your budget.

Plan your systems with VERIS and Live the Future!
