New Generation Drinking Fountain:
Restore the right of clean, affordable water for all.

The privatization of water:
Waste of Natural Resources
Expensive
Toxic
Pollutants

The current state of water fountains:
Unsanitary
Lack maintenance
Lost public trust
Little to no filtration

Water
is a human right,
not a luxury.

Features

- 5-8 stages of filtration
- Infrared motion sensor
- Cooling and heating system
- Dual access points
- Eco friendly materials
- Ease of use
- Ease of service
