Ski & Snow Boarding Resorts

UTAH

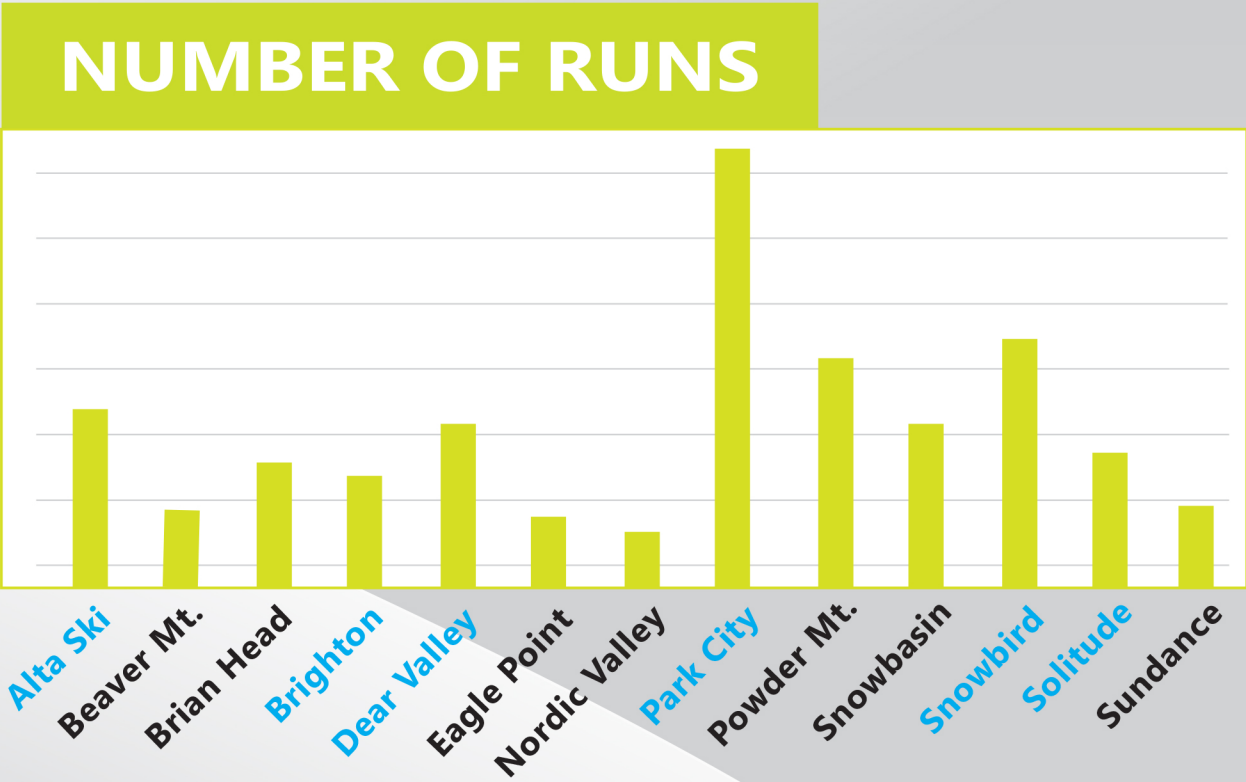

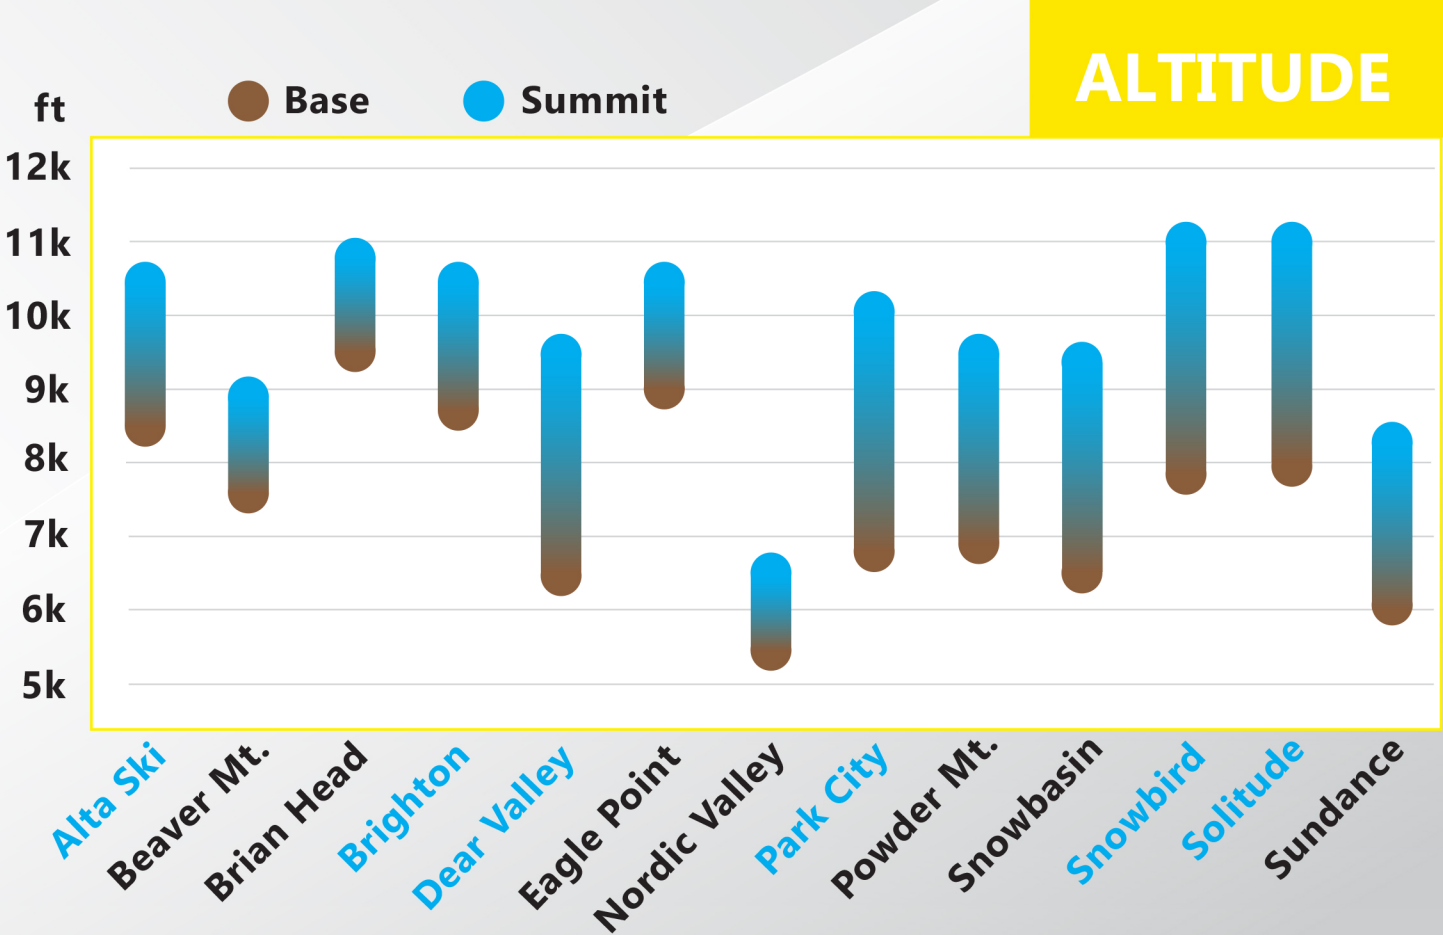

13 Resorts are waiting for you !

Utah ski and snowboard resorts make the ultimate winter vacation destinations. The Salt Lake City resorts are all located in beautiful, steep canyons with spectacular views of the Salt Lake Valley, each just minutes from downtown Salt Lake City. Never leave the mountain, with ski in/ski out options available at most of the area resorts.

Our resorts average 500 inches annually of the driest, lightest powder on the planet, perfectly located to take full advantage of the additional snowfall generated from Utah's weather phenomenon, known as the "lake effect". - Captured from www.utah.com

TIPS FROM TOWNIES

No snowboarding is allowed at Deer Valley. The Canyons is Utah's largest ski resort and is soon to be the largest in North America. The Canyons is beautiful and far too big to cover in one trip. Park City Mountain Resort offers skiing and snowboarding in a more laid-back environment. The crowd is much younger at Park City Mountain. Deer Valley is the most expensive, followed by the Canyons and then Park City Mountain Resort. Captured from traveltips.usatoday.com
