# Infinity Cut System

- :: Infinity Sleeve design - promotes an anatomical fit. Shaped to move with the body.
- :: Vent panels in collar bone area (high heat area)
- :: Vent Panels placed under the arm for breathability and moisture transfer
- :: Flat-lock stitching for next to skin comfort

**Technology**

**Fabric**

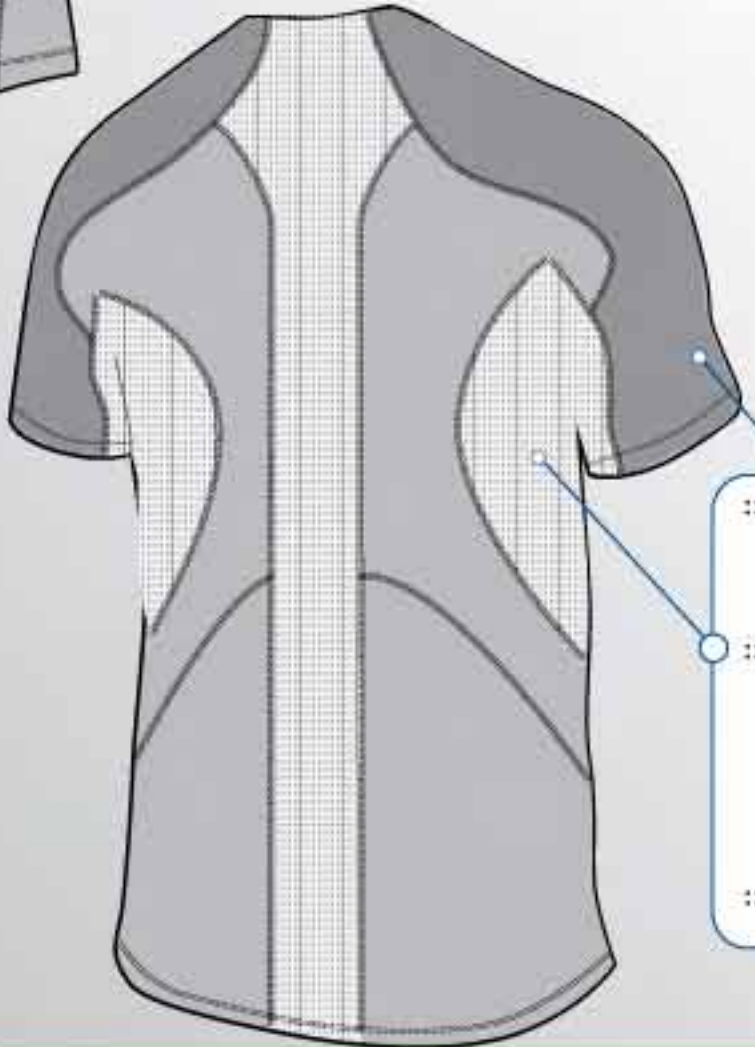

-  100% Poly with Active Carbon
-  Stretch mesh
-  Body Fabric 100% Polyester

---

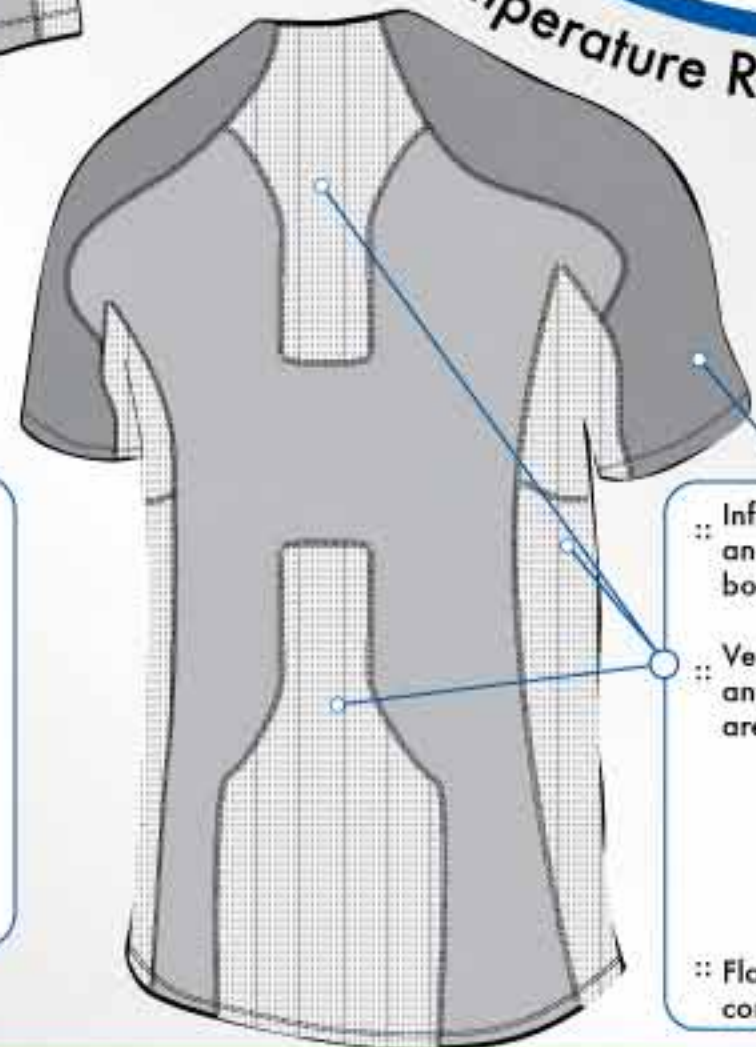

**Inherent Properties of Fabric with Active Carbon Particles**

- Anti-friction
- Moisture transfer
- Odor
- UV protection

**Body Friction & Temperature Regulation**

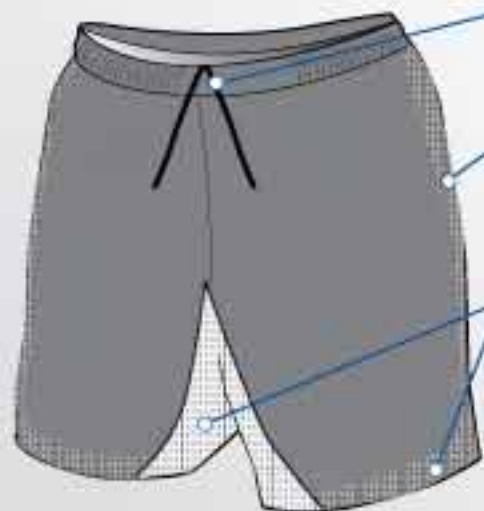

- :: Infinity Sleeve design - promotes an anatomical fit, shaped to move with the body.
- :: Vent Panels, to promote breathability and moisture transfer in high heat areas
  - : under the arm
  - : latissimus dorsi
  - : neck /spine,
  - following perspiration lines.
- :: Flat-lock stitching for next to skin comfort

- :: Infinity Sleeve design - promotes an anatomical fit, shaped to move with the body
- :: Vent Panels, to promote breathability and moisture transfer in high heat areas
  - : under the arm
  - : extending down the side panel
  - : neck
  - : lower back
  - following perspiration lines.
- :: Flat-lock stitching for next to skin comfort

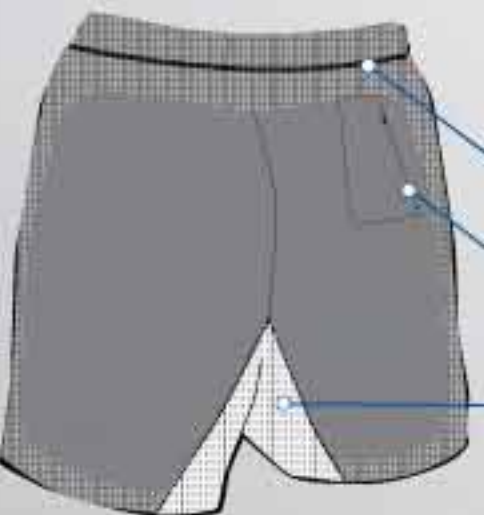

Fit and Style  
running/soccer short

# Infinity Cut System

front

- :: Internal drawcord and elastic waistband with fluff thread cover, for comfort and customized fit
- :: Vent Panels, to promote breathability and moisture transfer
  - : down the sides
  - : bottom hem
- :: Carbon insert crotch area for anti friction
- :: Body fabric: Woven Poly

back

- :: Rear waist band, high moisture transfer, quick drying
- :: Hidden zip music pocket
  - : Bar tack stitch to reinforce bottom of zipper
- :: Carbon insert crotch area for anti friction

2 in 1 short  
combine compression story with lite weight running/ soccer short for a no nonsense workout short

front

  - : pelvic
  - : crotch
  - : small of the back
- :: Branded Elastic leg gripper
- :: Flat-lock stitch for next to skin comfort
- :: 8" inseam

back

Body Friction & Temperature Regulation

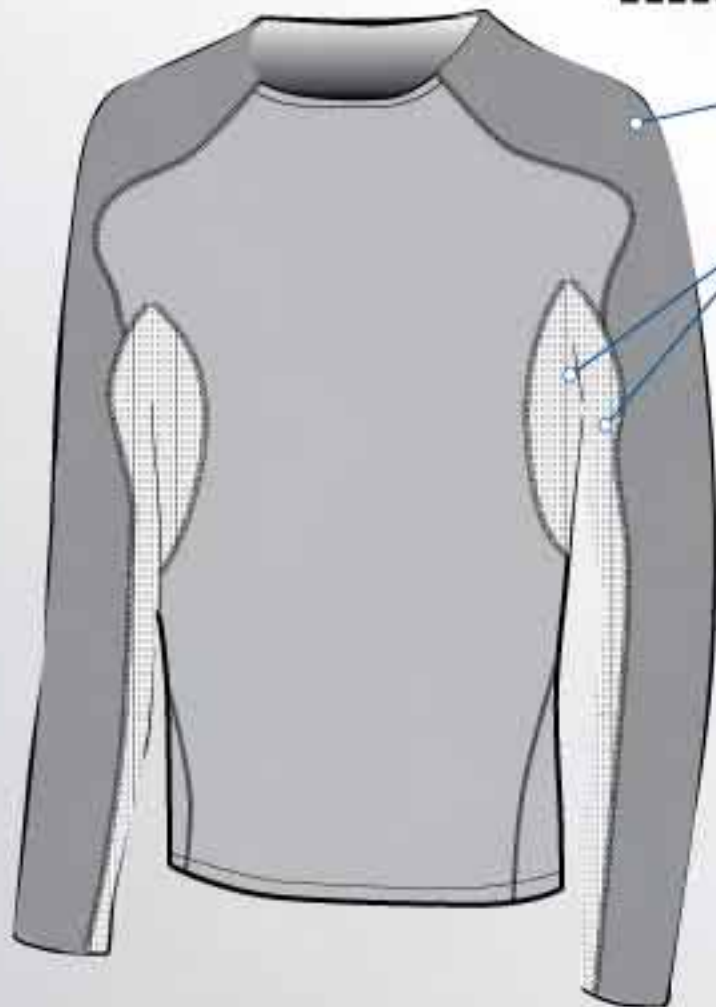

## Technology

- Fabric
-  100% Poly with Active Carbon
  -  Stretch mesh
  -  Body Fabric 100% Polyester
  -  Internal drawcord / elastic waistband with fluff thread cover

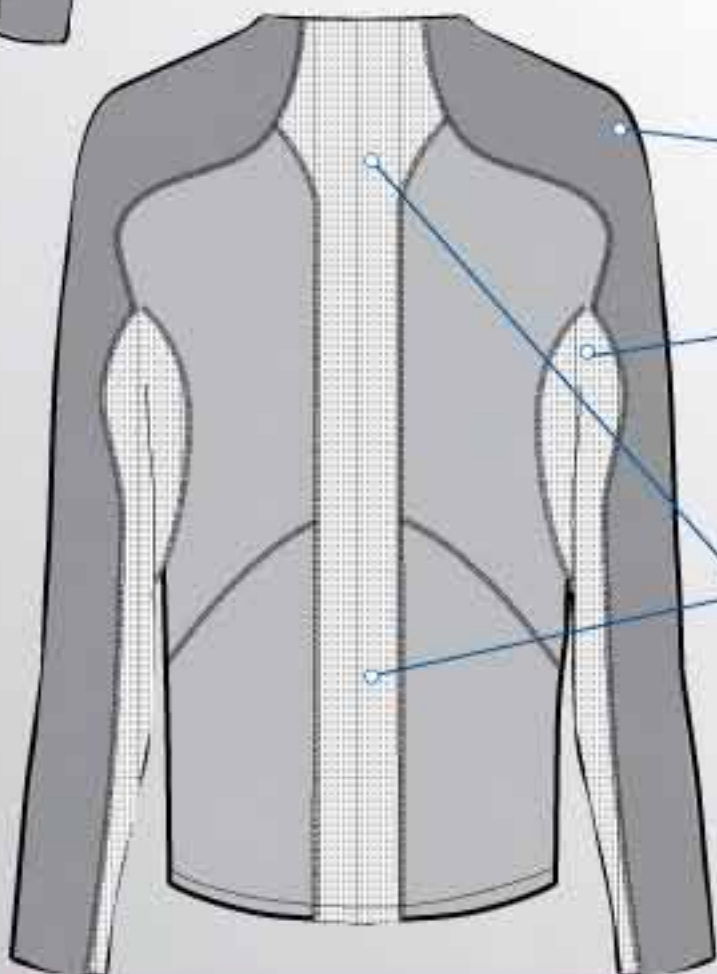

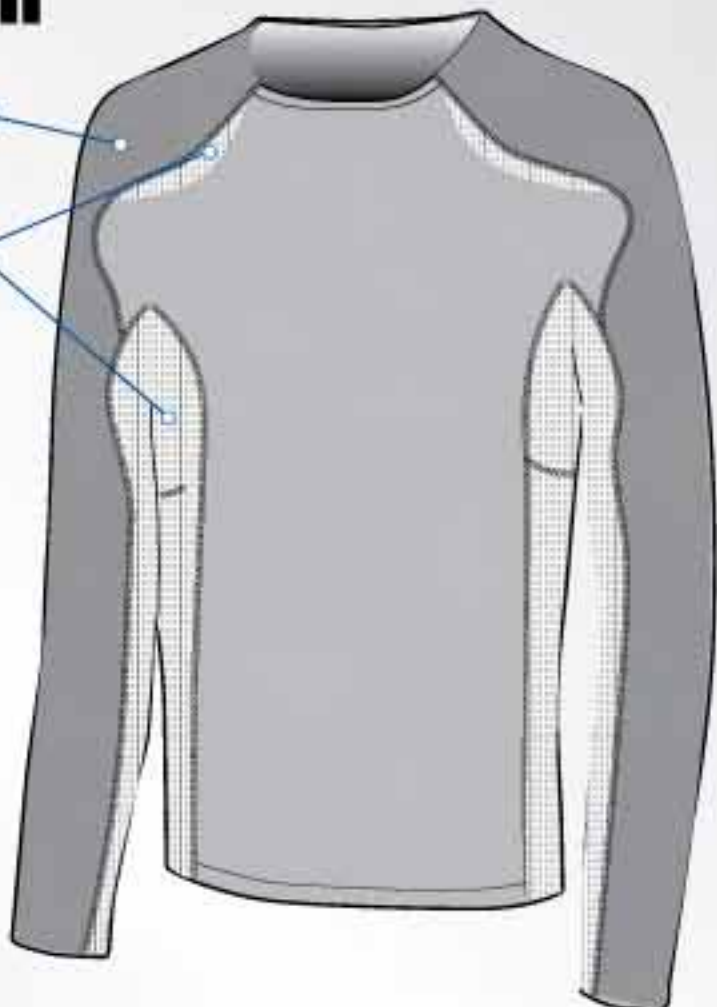

- Inherent Properties of Fabric with Active Carbon Particles
- Anti-friction
  - Moisture transfer
  - Odor
  - UV protection

Fabric: Body: 100% polyester woven.  
Yoke: 80% polyester/20% spandex circular knit mesh.  
Liner: 180-190 g/m2 poly lycra, stretch mesh

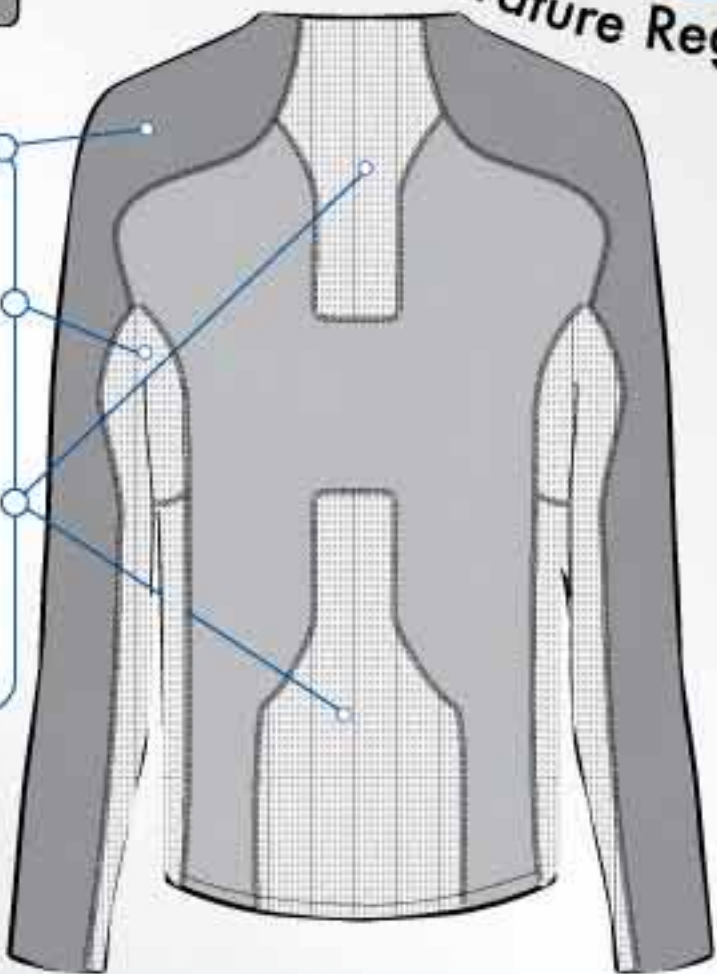

# Infinity Cut System

:: Infinity Sleeve design - promotes an anatomical fit, shaped to move with the body  
 :: Vent Panels, to promote breathability and moisture transfer in high heat areas  
   : armpit  
   : extending down the underside of the arm  
   : collar bone area  
 :: Flat-lock stitching for next to skin comfort
