

Insurance for Federal Government Contractors

You face unique challenges. We offer customized insurance solutions to help you meet them.

CHUBB®

As a federal government contractor, you play an important role in our country's defense and national security. This comes with unique risks. At Chubb, we work with you to help make sure your business has insurance tailored to your specific needs.

Federal government contracts offer immunities. But are they enough?

There are many challenges in delivering products or services for the U.S. government. You may need to do business in remote foreign locations. Your products could be related to combat. Maybe you depend on subcontractors who may or may not come through for you. Here's one challenge you don't need to go alone: making sure you have the right insurance to safeguard your company from the variety of risks you face.

At Chubb, we've worked with countless businesses like yours. We can help you understand the limits of government immunity and what you need to do to protect your business. We're committed to helping you build an insurance program that's right for you.

Would you like to:

- Simplify your insurance program?
- Get insurance tailored to your specific risks?
- Work with an insurer who has experience, expertise, and financial strength?
- Receive prompt, fair claims service?

If so, insurance from Chubb could be right for you.

Enjoy the convenience and peace of mind of a single insurer

With Chubb's offering, you can simplify your insurance program by choosing one provider for all your needs – saving you time and money on administration. We help you reduce protection gaps with policies that complement each other. And you never have to worry about being caught in the middle between disputing insurance companies if a claim impacts multiple policies.

Federal Government Contractors

Get the right insurance for complex product liability

Developing new technologies and entering into new contracts creates opportunities for your company. We support your business by underwriting for complicated product liability that other insurers may shy away from, such as biological containment shelters, targeting software, and grenade launchers for the military.

Protect your business against costly legal expenses

It's a misconception that federal government contractors can't be sued. Government immunity is not an automatic shield from liability, and legal defense expenses are your responsibility. Even if you win the case, a lawsuit could still be costly. We offer payment for legal expenses to help protect your business if you're involved in litigation.

Why Chubb?

Experience matters

For more than a decade, Chubb has insured federal government contractors across the country. We have the proven resources to meet your unique insurance needs.

We know your business

Our specialized loss control engineers and dedicated claim adjusters have the technical expertise to handle your specific legal defenses and unique exposures.

World-class claims service

We earn our reputation for outstanding claims service by practicing the same philosophy today that we did at our founding in 1882: Treat our policyholders with integrity, empathy, promptness, expertise, and fairness.

Financial strength you can trust

The federal government depends on you to deliver. And you can count on us. All of our offerings come backed by our proven track record and financial strength.
