

Created a product line that was sold in the retail store MICA, which is located in Cincinnati, Ohio.

My product was created from my own problem of being unorganized when I travel, go out at night, go to work, or just go about my everyday life. I didn't want to carry huge purses or bags anymore where it took me an hour to dig for items. I wanted it to be simple.

My product acknowledges that by being small, holds only essential items, and are just plain fun. Life is an adventure, live it!
