

What's *This Guy* So Happy About?

He just hacked your company's network.
Now he has all your confidential data.

Could you have stopped him?

*Training is your first line
of defense...*

*Arm your employees with the right
training and understanding of cyber
security with ESI'S INFORMATION
ASSURANCE:*

- ESI's training focuses on the needs of an integrated, cross-functional project team.
- We've designed online modules and instructor-led courses that will provide the team with the competencies to put the right security measures in place.

Online Learning Modules

1. Information Assurance Fundamentals
2. Information Assurance Risk Management
3. Business Continuity and Disaster Recovery Planning

Instructor-led Courses

1. Managing Information Technology Projects and Information Assurance Basics
2. IT and Information Assurance Risk Management

We bring the insights you need to ensure your project's success.
