## PROFILE

Licensed Architect in the Netherlands and Portugal, with broad professional experience in both Europe and the US (4 and 5 years respectively), working in both commercial and residential design, large and small scale projects, urban planning and public space renovation, as well as interiors, furniture and product design.

Worked in all phases of a project, ranging from initial Space Planning/Schematic Design phases; Building/Planning Code Analysis, up to the preparation of complete Permit and Construction Documents.

Well versed in executing drawings as per drafting standards, preparing presentation documents, sketch designs, detailing and product research as required. Led a small team of designers/interns and delegating work to meet deadlines. Extensive experience with graphic and drafting software.
