

Inspired Design Solutions

**What Does a Successful Project look like to you?
—Your answer is our starting point.**

Based on our corporate mission - 'Design | Serve | Solve | Excel.' - our design approach begins by clearly defining your vision, and results in a successful, inspired design solution.

During the process, we work closely with you to provide standard and other value-added services...

projects

INSTITUTIONAL

After studying the Airport's situation, we proposed a solution that met the Airport's current needs and provides for its future as well. Rather than simply adding a concourse, we worked closely with the Airport and other involved entities to create a Terminal expansion plan for the Airport that includes a new stand alone Unit Terminal with integrated expansion capabilities beyond the year 2020.

CORPORATE

The specific needs of dental practices led to the unique shape of the building. It is essential that dental operatories face north and east for optimum daylight, so we designed two offset rectangular wings stacked on top of each other. Each one has two suites facing north and east.

RETAIL

Our design communicates Magnolia Hi-Fi's message by using earth tones that create a richer, softer look both near and far away — all without ever overwhelming the viewer with the building's size.
