

Project: Aviation Park
Location: Lakewood, Colorado
Date: March 2004 - October 2004
Firm: CPRA Studio

In collaboration with the City of Lakewood Planning Department, CPRA assisted with design and construction documents for Aviation Park. This small community park is rich with history and culture having been built on the former Aviation Club site. In recognition of this location and history, aviation artwork was woven into the park's design. Being adjacent to an art college, raised sculpture pedestals were located along the main promenade for art students' use and display.
